HESLB registers sharp increase in loans to students

By Carlos Banda

THE Higher Education Students' Loans Board (HESLB) has reported a surge in the loans budget for university students amounting to 786bn/- for the financial year 2023/24 from 464bn/- recorded in fiscal 2020/21.

Abdulrazaq Badru, the HESLB managing director, made this observation at a media briefing in Dar es Salaam yesterday, outlining when speaking to media personnel on the board performance in the past two

"In a few past years, the number of students who were loan beneficiaries rose from 53,000 to 75,000 currently," he said, noting that this reflects the rising higher learning cluster in society.

"As the economy is growing, the demand for the human capital market is also expected to increase," he said.

The increase in the number of students cumulatively means the number of students receiving loans is also growing, from 140,000 annually three years ago to 220,000 at present, he said.

The trend related to financial investment by the government in a period of four TURN TO PAGE 2

By Correspondent Marc Nkwame, Arusha

TANZANIA is by all impressions becoming the first country in Africa to build a nutrient-dosing machine, a modern apparatus to fortify grains during milling.

Prime Minister Kassim Majaliwa ment merits applause. launched the new apparatus here yesterday at the 9th multi-stakeholder food and nutrition forum, where the project developers said a factory is on the cards for mass production of this apparatus.

Built by the Small Industries Development Organization (SIDO) here in conjunction with the Dar es Salaam Institute of Technology (DIT), the nutrients dosing machine is part of projects run by the Global Alliance for Improved Nutrition (GAIN).

Tanzania has managed to cut down on malnutrition to 30 percent of the population in the past decade, the premier noted, affirming that the new achieve-

SIDO to manufacture nutrient-dosing tools

Even the number of stunted children is now dropping, he said, pointing out that there is still much to be done to eradicate malnutrition in the country.

The concept of fortification of grains and flours with nutrients into grains using the dosing machines will push the country to make bigger strides on that problem, he said.

At the climax of the 2023 torch race in Manyara Region, President Samia Suluhu Hassan challenged Njombe and Iringa regional commissioners to tackle issues of malnutrition in those regions, where the situation is perennially reported to be bad.

Dr Winfrida Mayilla, the GAIN head of programmes, said that the global NGO has managed to manufacture 50 nutrients dosing machines now distributed to five regions, namely Mara, Iringa, Kagera, Manyara and Kilimanjaro.

Jenista Mhagama, the Policy, Parliament and Coordination minister in the Prime Minister's Office, talked of plans to build a factory for mass production of the nutrients dosing machines for countrywide distribution and exports.

Paul Sangawe, the PMO director of policy and coordination, said the locally built machines cost around 1.5m/-, whereas the tools were previously imported at a cost of up to 6m/-.

We already have a fare collection system purchased by DART. It will be integrated on all the ITS platforms to be built, for management of the corridor, for the security and planning purposes

By Getrude Mbago

THE Dar es Salaam Rapid Transport (DART) has entered is contracting Spanish consulting firm-IDOM to design and plan the installation of an intelligent transportation system (ITS) to enable the monitoring and provision of efficient transport services.

DART's chief executive Dr Edwin Mhede said the project priced at euros 2.55m (6.75bn/-) is stretched across 14 months, with five months of feasibility study and plan, and nine months for procurement and installation of the ITS system.

A press briefing at the project kick off meeting in Dar es Salaam yesterday, he said that once completed, "the landmark development will completely change the way people commute in Dar es Salaam's Bus Rapid Transit (BRT) experiencing smooth and timely transport services."

He said ITS will be informing passengers which bus is arriving or leaving the station as there will be big screens installed in the sta-

"Passengers may also see the movements of buses through their mobile phones and be able to decide which bus to take to their destinations. This is what we call rapid transit," he said, highlighting that drivers will be able to plan better on their daily operations for smooth service provision.

The ICT infrastructure will allow deployment and effective management of mission critical systems like automated fare collection systems and the traffic management centre, he said, emphasizing that reliable, resilient and sustainable ICT Infrastructure enhances data and information flow in the DART system between components to allow effective BRT operations in an all-round manner.

The DART system needs reliable clean power from different sources, he said, pointing at mix like inverters, solar and backups to minimize the risk of power outage.

This will ensure business continuity reduces

HESLB registers sharp rise in loans to students

FROM PAGE 1

years, a key message that in the past years the annual financial investment in human capital had grown at the rate of 70 percent.

"That is a big movement in many sectors, as the government is committed to go along with the pace of growth in the economy," he said, pointing out that the nation is on the margin of the middle-income level worldwide, demanding people with various skills and training.

Up to last month, the board had collected a total of 1.34tr/- in loans repayment dating from 2005/06 a performance rate of 64 percent efficiency, with 2.1tr/- still not paid by

In that case during fiscal 2020/21 and 2022/23 a total of 530bn/- was collected by the loans board, 93 percent of the money being sought after, he said, citing the lack of willingness to repay the loan by defaulters as a major impediment.

There are those who are not employed in the formal sector and employers who fail to collaborate with the institution to provide details

about employees who once benefitted from the lending institution, he said.

"In our experience, the level of willingness to settle the loans is not satisfactory. In other places, willingness is a culture. We are not complaining, however we insist that there is a need to cultivate a culture of wilful loan payment," he explained.

"Employers are our major stakeholders and agents in our value chain. But still some employers delay paying back the loans by deducting the amount from the employee's wage. Some employers have not been submitting the salary deductions to pay the loans on time and some have submitted payments which are deficient," he said.

The absence of uniform systems for HESLB and other vital institutions is also a hindrance to efficiency in following up defaulted loans, he said, specifying that influencing other stakeholders to join the Government Enterprise Service Bus (GovESB) operating within the Electronic Government Agency (e-GA).

FROM PAGE 1

people in villages bordering the adjacent parks, he said.

The use of VGS boosts conservation efforts, he said, alluding to plans to help the youth to form productive groups to be provided with grants or loans. There are recorded successes linked with the use of VGS at the Ruaha and Udzungwa parks, he stated.

Using village game scouts in conservation of natural resources has shown successes at national parks engaging them via CBCTC, set up by the ministry with assistance from the German development agency,

The training enables VGS to acquire essential skills that make them custodians in part of nature in their villages.

Geofrey Makomelo, one of the VGS trainees who completed training at CBCTC this month, said before joining the programme he was engaged in farming.

Hailing from Ilangali village, Manda ward in Chamwino District, Doombero District, Morogoro Region said her village borders Udzungwa National Park, hence the need for youths there to be picked for the training.

"As trained VGS I will cooperate with other villagers in preserving our natural resources and control wild animals, chiefly elephants, intruding in the area," she said, noting that she has all the skills and will pass on the knowledge to others.

Techniques used to keep away elephants include the use of chilipowdered ropes, chili-plant buffer zones, and smoke bombs made from dried elephant dung and chili

The principal said the centre has also introduced certificate and ordinary diploma courses in tourism and tour guiding, hinting that studying at the college is advantageous as it borders Mbarang'andu Wildlife Management Area (WMA) and Nyerere National Park.

The college has so far trained 354 VGS, she said, elaborating that young people can apply for the newly introduced courses as the college has the capacity to accom-

to set up facilities at the college premises as it spreads out on (3,911 hectares. Various improvements have been made, including being connected with grid electricity, she

Makinda urges journos to invest more in last year's PHC data use

By Guardian Correspondent, Arusha

THE Commissioner of Population and Housing Census 2022, Anne Makinda, has urged journalists to invest in informing the general public on the best way to use data from the national population and housing census for better planning.

Makinda was speaking during a seminar for effective use of national census data which was held in Arusha on Wednesday.

"Politicians will always speak a lot about the census but you should always strive to use data and extract everything in the document," she said.

She said the information contained in the document is eye opening to the citizenry to plan their development activities, adding that the use of data from the National Bureau of Statistics (NBS) depends on journalists to extract information for easy public consumption.

"Our data is now recognized worldwide, when we say a country has made strides, it is a must to have

statistics," she said. Arusha Regional Commissioner John Mongella said using journalists to disseminate the results on the National Population and Housing Cen-

sus will save money and resources. Mongella said that without accu-

rate statistics no correct decisions will be made adding that in order for the country to develop, it is necessary to use journalists to convey information to the people.

Said Ameir, NBS information and communication specialist said they have three types of statistics which are economic, social and environmental statistics.

He mentioned the sources of statistics as research, census and administrative information where he explained that there is a system to collect administrative data which reduces the cost of conducting research.

Leokadia Mtey, chief government statistician representative said that the aim of the training is to build the capacity of the media so that they can promote the results of the census to the people.

Mtey said during the population and housing census, the media did a good job until education reached the people and the census was suc-

Dr Amina Msengwa, NBS board of management chairperson said journalists through the media are the ones who can convey the message to the people.

She said the media is the main source of information that reaches the people.

NGOs in drive to protect children from abuse, enhance their security

By Beatrice Philemon

IRINGA-based NGOs-Compassion International Tanzania (CIT) and Child and Youth Development have launched campaigns to protect children from abuse and enhance their security.

Dubbed: 'Child Safety and Defence', the campaign has been launched at Ilula township, Kilolo District and aimed at preventing children from child abuse and increase children safety and defence in their localities.

The campaign will run for three

centres-EAGT Ilula Child and Youth Development, KLPT Luganga Child and Youth Development and ELCT Luganga Child and Youth Development.

Bujo Paight, coordinator EAGT-Ilula Child and Youth Development Center said that the campaign is meant to educate the community to understand the importance of safeguarding children, protecting them from all forms of harm, negligence and abuse which they may experience at home and school.

Under the campaign, parents will

months and is to benefit three child be trained on child care, protection, types of violence and how to report violence incidents once occurred in their localities and children's rights to help parents to better care for their children and to protect them from all forms of violence.

The campaign will involve parents, children, youth, guardians and teachers in both primary and secondary schools.

Justin Nyamoga, Kilolo MP lauded region leaders, church partners and CIT for introducing the campaign to raise awareness on how children can be safe at Ilula Township.

Iringa region is among the regions which have high Gender based violence against children, as a result all children have a right to be safe and should be protected from all forms of abuse and neglect.

"It's up to all of us to keep children safe, if you're concerned a child is being abused or their safety is at risk, please speak to someone, report it anonymously to your local village leaders or authorities responsible for this issue or police who can provide the support a child may need," he said.

CIT is working closely with church partners in other regions to support children and youth from poor families, they support them interms of spiritual, economic, social, and physical poverty.

been particularly affected, posing a include expanded market access, The discussions covered various risk to food security."

Dafa elaborated on the EABC-GIZ Business Scouts study on Investment Opportunities in the EAC Agriculture Value Chain, revealing the EAC's vast potential to produce wheat grain, edible oil, leguminous plants, root tubers, and fertilizer.

He emphasized that, through the EABC-GIZ Sequa GmbH project under the Business Scouts Fund, they aim to improve the skills and capacity of agri-actors in contract farming and EAC export procedures to increase agricultural

improved production practices, risk-sharing mechanisms, and income stability for farmers.

Martha Ndelekwa, Chairperson of the Women Farmers' Group in Ngulelo, Arusha, expressed her enthusiasm, saying: "The contract farming training will enable our farmers' group of 35 women to negotiate fair and mutually beneficial contracts with buyers of green peas."

The capacity-building workshop empowered agri-actors, including farmers, processors, and buyers, with the knowledge and skills productivity and access to markets. needed for effective engagement The benefits of contract farming in contract farming arrangements.

aspects of contract farming, including negotiating equitable contracts, understanding the rights and responsibilities of each party, managing quality control, pricing mechanisms, and resolving disputes.

The EAC economies with the highest economies of scale in the agricultural sectors are found in animal and animal products, dairy products, cereals, and food preparations. The EAC Aggregated Agricultural Intra-Industry Trade index declined from 0.92 in 2021 to 0.52 in 2022 due to a drop in trade of grains, oilseeds, fats, and oils caused by global shocks.

'Tanzania's mining sector remains open to investors'

By Guardian Reporter

DEPUTY Prime Minister Dr Doto Biteko has called on more Tanzanians and foreigners to invest in the country's mining sector owing to the friendly environment that continues to be put in place for them and seeing into it that all benefit.

Dr Biteko made the statement while gracing a two-day 2023 International Mining Investment Conference (TMIF) sponsored by Geita Gold Mine Limited (GGML) in Dar es Salaam on Wednesday.

He said that the over 2000 stakeholders from in and outside the country is a testimony that the government was serious in improving and promoting the mining sector, where all parties reap benefits harmoniously.

He added: "This time the government has improved the status of the conference to suit the international standard that is envisioned by all."

Dr Biteko noted: "Obtaining geological information improved and is now done digitally. Here, the government has planned to conduct research with modern technology in a term I may call "High Resolution Airborne Geophysical Survey" in all mining areas come the year 2030.

"The availability of geological information in many areas of our country will encourage the speed of investment in deep mineral exploration which is the main basis for the establishment of mines.

"I urge all of you here to participate in the mining of minerals by looking at the interests of our country and our people. We are still facing the challenges of geological information in many areas, so the Government has decided to invest in high-quality research to find out the presence

of mineral deposits and attract investors to invest."

Minister for Minerals, Anthony Mavunde said that the discovery of reserves will lead to the opening of more mining sites in the country and in turn increase the government's income and employment for Tanzanians.

He added: "There will be no bureaucracy when it comes to investment, our job is to create a friendly environment so that there will be benefits for all parties."

Simon Shayo, AngloGold Ashanti - Geita Gold Mine vice president for Tanzania and Ghana said the government has done a lot to improve the mining industry and thus, enabled them to also concentrate on community plough back and fund local projects.

He added: "We can cite the company's Corporate Social Responsibility (CSR) program that has enabled the people around the mine in Geita region to get water service by more than 70 percent. Again, with the expertise of the company, GGML was the first company to invest in advanced mining technologies in the country as we also focused on prioritizing health and safety at the workplace."

He said that the company that was founded in 2000 here in Tanzania has improved the technologies that enabled them to win several health and safety awards in four consecutive years.

Shayo cited a case study of that in accordance with the plan of Tanzania and the world to reduce carbon emissions, the company built a carbon filter plant due to the mining activities.

Among other things, he said that the company has used more than 75 percent of its expenditure to buy products from local bidders in the country and to implement requirements as stipulated in the changes in the mining law.

USAID project expansion to cover more seascapes in Tanzania

By Frank Monyo

THE funding for the USAID Tanzania Heshimu Bahari Activity has been increased from US\$ 13 million to US\$ 25 million.

Craig Hart, the USAID Mission Director in Tanzania, announced this expansion yesterday during the international gathering to celebrate 40 years of the Tanzania Fisheries Research Institute (TAFIRI) establishment.

The expansion follows the discussion between the US Embassy in Tanzania and Ministries responsible for Blue Economy and Fisheries in Zanzibar and Livestock and Fisheries, Tanzania Mainland early this year.

The expansion funding will extend Activity's geographic coverage extending south Coast of Tanzania Mainland from Dar es Salaam. through Lindi to Mtwara and will cover the Marine Management Areas Network of Dar es salaam Marine Reserve System, Mafia Kilwa Seascapes and Mnazi Bay Ruvuma Estuary Marine Park.

This geographical and funding expansion means extension of the number of the Fisheries Replenishments zones to be established, area of biologically significant areas conserved. more enhanced livelihoods to communities with special emphasis on Gender and youth and capacity building on MMAs management to mention a few.

The funding expansion will also support addressing the pressing Community Climate resilience. The Activity's expansion will further support Tanzania's government effort in addressing overfishing and illegal, unintended, and unregulated (IUU) fishing.

USAID Heshimu Bahari's Activity is a 5-years US government-supported project committed to Tanzania's marine sector. The project is being implemented in collaboration with the

Tanzanian government through the Ministry 12 million), and it will be implemented on of Livestock and Fisheries and Ministry of Blue Economy and Fisheries including their relevant institutions to achieve the conservation goal.

address a variety of threats to Tanzania's marine ecosystems, including overfishing and illegal, unintended, and unregulated (IUU) fishing, as well as blast fishing, which, if not controlled, will severely harm vital coastal fisheries. The project will further support communities' resilience to the effects of climate change on ecosystems and livelihoods, as well as the country's tourism sector potential.

Started in 2022, the USAID Heshimu Bahari's Activity - together with its partners and Government of the United Republic of Tanzania and the Revolutionary Government of Zanzibar in the next four years will works to establish an enabling framework for a Marine Protected Area (MPA) network for resilient biodiversity conservation and enhanced wild-caught fisheries production through established Fisheries Replenishment Zones (FRZs) and ensuring their connectivity.

The project will also empower communities and strengthen community management structures to engage in co-management of MPAs for biodiversity conservation and wildcaught fishery productivity.

Recognizing the role played by the private sector, the project is working to incentivize private sector investment in MPAs and wildcaught fisheries through a strengthened enabling environment. Another area addressed by the project is to increase scientific community engagement with policymakers and managers of MPAs and wild-caught fisheries.

The total budget for the Activity is close to \$ 25 million (including an additional \$

both the mainland and the Zanzibar islands. The project's initial focus seascapes were Bagamoyo, Pangani, and Tanga districts in the The USAID Heshimu Bahari Activity will mainland, as well as Pemba and Unguja islands in Zanzibar.

> Dar es Salaam, Mafia-Kilwa, and Mtwara on the mainland, as well as Unguja East in Zanzibar, are among the new focus areas. The activity expansion provides an opportunity to cover the entire shallow water habitat in areas of baseline survey, socioeconomic assessments, and community climate vulnerability assessment, which will inform community livelihoods in targeted areas on both the Tanzanian mainland and the Zanzibar coast.

> The projects will support ecosystems resilient to climate change while maintaining important ecological connectivity, which has a huge impact on fish and marine resource productivity and support for socioeconomic activities in the marine sector, including women and youth.

> In such, the project will closely work with communities and other partners on the ground to establish marine ecosystems friendly community investments/livelihoods that will support the livelihood and wellbeing of the communities and marine ecosystems.

> The event is attended by renowned international experts, providing an opportunity to look back at the journey of TAFIRI and chart a course for the future of fisheries and aquaculture in Tanzania.

> The Host and organizers of the meeting are the Ministry of Livestock and Fisheries in Tanzania (MLF), Tanzania Fisheries Research Institute (TAFIRI) in collaboration with USAID under the project named Heshimu Bahari and Western Indian Ocean Marine Sciences Organization (WIOMSA).

NOTICE OF THE HARADALI CAPITAL LIMITED ANNUAL GENERAL MEETING TO BE HELD ON THE 18th OF NOVEMBER 2023 AT CORNERSTONE PARTNERS OFFICE UNIT 96J KILIMANI ROAD, ADA ESTATE KINONDONI

Notice is hereby given that the 10th Annual General Meeting of Haradali Capital Limited Shareholders will be held at Cornerstone partners Ltd Office's at Kinondoni Ada Estate Unit 96J and virtually on Saturday, 18th November 2023 at 10:00am.

AND VIRTUALLY

The Agenda will be as follows:

- Notice and Ouorum.
- Adoption of the Agenda.
- To Receive, Consider and Adopt the Director's Report and Audited Financial Statements for the 12 months ended 31stDecember, 2022.
- 4. To Receive and Adopt the Statement of Assets and Liabilities and Statement of Operations for the 12 months ended 31stDecember 2022
- To transact any other business appropriate to be dealt with at the Annual General Meeting.

A member entitled to attend and vote at the meeting is entitled to appoint a proxy to attend and vote on his/her behalf in provisions of the Articles of the Company.

Zanzibar to build more affordable residential homes

By Guardian Reporter, Zanzibar

THE Zanzibar government intends to move away from unplanned settlements, and get into decent housing a move that will stimulate economy in the Indian Ocean archipelago.

President Dr Hussein Ali Mwinyi made the remarks after laying a foundation stone for construction of residential houses in Tomondo area, Mombasa Kwa Mchina in the eastern part of Unguja region.

The project is being executed by the Zanzibar Social Security Funds (ZSSF) and the Zanzibar Housing Corporation (ZHC).

Dr Mwinyi said one of the promises in the 2020 CCM election manifesto was to build affordable houses for the citizenry.

He added that the government will continue constructing better residential houses so that the people can get better housing, noting that the government has removed Value Added Tax (VAT) on the houses in order to reduce the cost and the people to get relief to buy houses and stay in better accommodation.

"We'll continue to reduce the cost of those houses for many people afford to buy them as the scheme is not only the middle class, but ordinary people, it is the government's responsibility to have affordable houses," he

Dr Mwinyi asked those who will stay in those houses to take care of them, saying there

is habit of handing houses to people who are not the owners who do not care, adding that this was the reason that the houses built by the first president of Zanzibar are in a bad condition.

"We don't have a culture of repairing houses regularly, we wait until the house falls apart and then we are shocked that it needs repairs when the houses are repaired regularly, they can last for a long time," he said.

Speaking on a three-year anniversary of his leadership and the activities planned to lay foundation stones in development projects, Dr Mwinyi said he was impressed to see that the implementation of the election manifesto has reached a good point.

TCRA refreshes online safety efforts in cybersecurity awareness month

By Guardian Correspondent, Arusha

THE Tanzania Communications Regulatory Authority (TCRA) has reiterated its commitment to educating the public and promoting online safety, aligning with the global cybersecurity awareness month expectations.

TCRA Director-General Dr Jabiri Bakari made the commitment on Wednesday when presenting the Quarterly Communication Sector Performance Report for quarter one of 2023-2024.

He highlighted the ongoing "Futa Delete Kabisa" (Delete completely) public awareness campaign, urging users of communication services to refrain from spreading unverified and obscene content in the online

Dr Bakari advised users of communication services in the country to report fraudulent messages or calls received on their phones by sending a short message to 15040 through which regulatory action will be instituted. He also reminded users that the only legitimate assistance for mobile communication service users that they can receive from their particular service providers is through the '100' short code.

"When you receive information that you're unsure about, information that doesn't align with our values, information that is baseless, you should delete it immediately because spreading it is a mistake and can lead to problems. Delete it permanently," emphasised Dr Bakari.

communications sector acquiring Digital Communication licenses, Dr Bakari mentioned that TCRA has streamlined the process through an online platform called "Tanzanite Portal," accessible on

service providers in Tanzania to renew their licenses in accordance with the law and regulations. He also encouraged citizens to ensure that they receive services from licensed TCRA providers at all times.

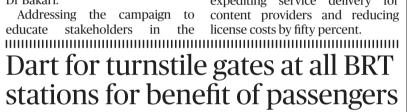

receive services from a provider with an active license because there are providers who continue to offer services with expired licenses," Dr Bakari emphasized.

Communication analysts have lauded TCRA's efforts in educating citizens about online safety and the acquisition of Digital Communication licenses.

Arusha resident, one Asha Mlay, commended the "Delete Permanently" campaign, noting its importance in preventing the spread of false and incendiary information online.

John Mwita, a communication service provider in Arusha as well, praised the user-friendly Tanzanite Portal system, highlighting its efficiency in facilitating license renewals for communication service providers.

Tanzania Social Media Journalists Association, applauded TCRA's establishment of the Tanzanite Portal, emphasising its role in expediting service delivery for

By Correspondent Joseph Mwendapole

THE Dar Rapid Transit Agency (DART) plans to install turnstile gates in all bus rapid transit (BRT) stations before the end of this year to ease the movement of passengers.

A turnstile (also called a turnpike, gateline, baffle gate, automated gate, and turn gate in some regions) is a form of gate which allows one person to pass at a time. A turnstile can be configured to enforce oneway human traffic.

Chief executive officer of the agency, Dr Edwin Mhede told the Minister of the President, (Regional Administration and Local Government) Mohamed Mchengerwa when he visited the offices on Tuesday.

"We are in the final stages of bringing Turnstile Gates and we have made a promise that it will not exceed this December because the existing ones create challenges when passengers enter the bus stations," he said.

Meanwhile, Dr. Mhede said that they transport an average of 60.7 million passengers per year, which is an average of 180,000 to 200,000 passengers per day.

He said that this is the success of the great efforts made by the sixth phase government as they were previously transporting an average of 90,000 passengers per day.

"However, we do not relax because the demand for this transport continues to grow every year because as we continue to repair our buses and improve customer service, the response of customers to use our service is increasing," he said.

He said the third phase and the fourth phase stopped for 29 months due to various challenges, but after negotiations with partners, the project is continuing with construction and is at a good stage.

The CEO explained that the construction of the 5th phase BRT infrastructure which is funded by the French Government, has not started but what is going on is the National Road Agency (Tanroads) looking for a contractor and when they sign the contract the construction from Ubungo to Nyerere road will begin.

He said that this phase will also involve the construction of BRT roads from Tabata Segerea to Kigogo connecting with BRT II to Magomeni Mapipa adding that as soon as Tanroads gets a contractor the construction will begin.

"Citizens should make sure to

Shaban Matwebe, chairman of

survey across the country to fill and improve the current vacuum on comprehensive geological information which is derailing investment in the mining sector. Deputy Prime Minister Doto

By Henry Mwangonde

Biteko revealed this when opening the Tanzania Mining and Investment Forum in Dar es Salaam yesterday where he said the survey in the form of High-Resolution Airborne Geophysical Survey will facilitate mineral exploration in the country.

"The move will help researchers and investors to dwell on areas that will have potential minerals and conduct detailed exploration hence saving time and resources,"

According to the Deputy PM, only 16 -percent of the country has been

and researchers to easily identify areas with potential minerals.

He said the move will also help increase investment in the sector, increase revenue and employment in the country calling upon stakeholders to collaborate with the government to achieve the goal.

"Despite the fact that our country has various strategic minerals which are needed globally, we still lack detailed information which can be used by investors for research and investment," he said. He said the government has

no option but to invest heavily in looking for detailed geological

in economic development saying there is a need for the country to align the sector with other key sectors such as industries and agriculture to produce various products from minerals such as fertilizer and batteries among

He said contribution of the mining sector to the Gross Domestic Product increased to 10.9poercent this year from 9.4 last year.

The contribution of the mining sector in bringing foreign exchange has continued to increase from \$1.6 billion to \$3.4 billion in 2022.

Minister for Energy Anthony Mavunde said the forum titled: information which is useful in 'Unlocking Tanzania's Future was sent to the treasury.

Mining Potential' aims to create an environment which will make Tanzania's minerals beneficial to the next generation.

The minister said the government was implementing the programme through the Geological Survey of Tanzania saying however, that the project needed huge funding.

"The government will continue mobilizing funds to ensure the project becomes a reality," he said.

Mavunde said in ensuring that the government benefits from the sector, the ministry will work on ensuring that it collects all the necessary revenue.

He said the government collected 678bn/- in the 2022/23 financial year and 882bn/- in 2023/24 which

Tanzanians urged to embrace, promote clean cooking drives

By Guardian Correspondent, Kigoma

THE government has urged Tanzanians to transform mind-sets and start embracing and promoting the use of clean cooking solutions to protect the environment as well as fight poverty.

Prof Joyce Ndalichako, Minister of State, Prime Minister's Office (Labour, Youth, Employment and Persons with Disability) made the call here when Oryx Gas Tanzania distributed 600 gas cylinders and its gas cookers to women and other groups in Kasulu District, Kigoma Region.

The initiative is part of the Firm's

plan to promote uses of cleaner and the government initiatives in Tanzania managing director, said efficient energy and avoid charcoal uses that pollute the environment.

Prof Ndalichako, who also doubles as Kasulu legislator commended Oryx for the supportive initiative which is going to provide huge relief to women and the groups in Kigoma.

She urged players in the Liquefied Petroleum Gas (LPG) industry to jointly work and implement efforts to support the government's efforts in promoting the use of clean cooking fuels to Tanzanian households.

"We are commending these efforts because they complement

clean energy use, President Samia Suluhu Hassan has been insisting on environmental protection and fight against deforestation, so we will continue working together with the private players to ensure that we protect our people as well as the natural resources," she explained.

In addition, Minister Ndalichako said that the use of firewood and charcoal has great health effects, so it was important for people to shift to clean energy for cooking for their health safety and protection

of the environment. Benoit Araman, Oryx Gas

the company was committed to continue supporting the government to help conserve the environment but also lift the lives of Tanzanians.

He said the efforts to provide various groups with gas cylinders is meant to increase the use of clean energy among Tanzanians.

"The programme seeks to surface innovative businesses that have the greatest potential to reach low-income households with affordable clean cooking solutions, and we are eager to see the positive social and economic impact in the society," he said.

Taking A New Look At The News **ESTABLISHED IN 1995**

Zanzibar's three-month tax holiday a good idea

Hussein Ali Mwinyi has issued a three month grace period for small traders in a specific area Unguja Island or Zanzibar city not to pay taxes for that period. The quick impression one gets is that they will use that grace period to put up some surpluses (presumably a part of the profit) to pay taxes in a more relaxed manner. As a matter of fact the idea hovers on the rescinding of tax requirement for a certain category of traders, to retain only a few levies, but it is complicated how that can be arranged, in like manner as quasi-free crop inputs.

The fact that the government, the Union and Zanzibar governments, have to come up with these measures from time to time reflects difficulties in mapping out policy that is enabling on one hand, and socially responsible on the other hand. For once, traders need to be facilitated where possible, including with tax exemptions, so that they can put considerable numbers of people on gainful occupations. There is no point in collecting optimal taxes while youth start-ups of any size are chocked out and they return to open air sitting rooms to try anything to get some cash to live

While announcing a three months tax holiday for a small number of traders in a newly established market area, the Zanzibar leader also asked local government authorities to seek new tax sources to improve collections to meet various local development needs. It is often on this score that benevolent thrusts at

ANZIBAR President Dr in implementation, for the need or the wish to collect higher taxes from one year to another trumps concerns over youth earnings and social relevance. The latter becomes a civil society issue, not something that local governments need to worry about on a day to day basis, as higher levels expect.

> There will be some discussions in the local government area concerning the directives by the president, in which case the issue of what to privilege will come up. Chances are that it will be clear that the tax holiday was an actual directive while the need to widen tax sources was a wider wish rather than an instruction as in the first instance. Bridging the gap between the two may similarly case a certain about of inefficiency, as the district administration isn't sure of the importance of tax collection as such, or at least in the next three months. Judging by some other tendencies in recent upcountry reports that can even ignite some revenue leakage.

More remarks on the part of the president indicated how the central government needs to think of loosening its hold on parts of the economy, so that authorities at the local level can survive and even thrive on daily earnings as it is the case in advanced countries. The reason isn't because they have higher average incomes than most of developing countries, but rather that land is privately owned and is income generating via stock exchange, as those obtaining rent pay directly to the local authorities by established systems. Here, higher level meet with impediments tenants are billed peanuts on LUKU.

Nigeria requires the development of national counter-terrorism strategies

By Special Correspondent

T is out of genuine concern that I wish to draw the attention of our leaders, especially those from the northern part of the country, to the persistent destruction of communities in the region due to the activities of kidnappers and terrorists. It has been more than two

weeks since the abduction of an unspecified number of female students from off-campus hostels of the Federal University Gusau (FUGUS) in Zamfara State.

And just as we are still reeling from the shock of the embarrassing situation, news filtered in on Wednesday, October 4, 2023, that five more students were seized by another group of terrorists at the Federal University Dutsinma in neighbouring Katsina State.

Ordinarily, these tragedies should spark a major outrage in a responsible country that has the interest of its citizens at heart.

But in Nigeria, we have been so desensitised by bloodshed and violent abductions that incidents like these are seen as daily realities

Nothing signposts the country's lack of resolve to address insecurity than the failure of President Bola Ahmed Tinubu to even mention the abduction of the female varsity students in his independence anniversary speech.

On their part, federal lawmakers in the House of Representatives never forgot to honour the late MohBad, a Southern singer whose death has generated widespread publicity, but completely ignored

The continued inaction and silence surrounding this issue is alarming and requires immediate attention from our leaders.

It is disheartening to witness repeated attacks on educational institutions in Northern Nigeria, a region already notoriously backward in terms of educational development.

As a nation, we cannot allow terrorists to overrun our communities, sow fear and hinder the progress and development of our youths.

Education is the bedrock of any thriving society, providing opportunities, fostering innovation and empowering individuals to realise their potential.

By allowing terrorists to target our educational institutions without decisive and proactive intervention, we are jeopardising the future of countless students, their families, and our nation as a whole.

These recurring attacks on schools undermine the trust and from pursuing education and hindering efforts to bridge the educational divide between the North and the South.

This vicious cycle perpetuates a state of socio-economic inequality and limits the opportunities for progress and prosperity in the region.

President Tinubu and members of the National Assembly! It is our duty and responsibility as concerned citizens to strongly condemn these acts of terror and insist upon swift and effective actions to ensure the safe rescue of the abducted students.

We implore you to collaborate with security agencies, engage in intelligence-sharing and enhance the capacity and resources dedicated to safeguarding our educational institutions.

We call upon you to provide unwavering support to the affected communities, ensuring their access to trauma counseling, education continuation programmes and resources necessary for the full

Additionally, we urge you to prioritise the protection of all educational facilities in the region, addressing the vulnerabilities that terrorists exploit and establishing strategic measures to prevent future incidents.

The president must work with our federal lawmakers and state governors to demonstrate that the Nigerian government is resolute in its commitment to guarantee the safety and security of our citizens, particularly our students.

Failure to adequately respond to these threats not only undermines the confidence of the people, but also emboldens terrorists and paints a grim picture of the state of our nation's security.

We implore you to take immediate and decisive action to rescue the abducted students, protect our educational institutions, and secure the future of education in Northern Nigeria.

The time for inaction has passed. We look to your leadership and commitment to prioritise

Ruaha Park ancient structures open a new window on Neolithic spread

FFICIALS at Ruaha National Park are buoyant with a chancy finding, of ancient pillars that some visiting journalists were comparing with modern city buildings, for the height rather than the design. There was some hesitation on the part of park officials as to whether they are build structures of they occurred in some natural way but there was some evidence of stone tools or things of the sort. As Ruaha is likely in the same Rift Valley column as Olduvai Gorge, it may be easy to explain,

The pillars are described as standing out like mushrooms were rapidly explained as having arisen from erosion on some rock structures from the elements, that is, water and wind. The place had visible stone tools of whose image the visitors brought to the place by conservation authorities are familiar with, as these tools enabled the formative state of the human species to discover the use of fire by knocking stone together. This brought about cooking, which changed the physiology of early man, and gradually led to upper levels of 'civilisation.'

There is already some excitement at Ruaha conservation team as to whether this finding will attract headlines or become one of those things, seen regularly around the world.

To be sure, it is one thing to find evidence of stone tools, though an effort will have to be made to establish the timeline in order to formulate in a clearer manner 'what happened in history,' in relation to stone age movements. It is altogether a different matter to find footprints of early humans, and the issue here is how far such footprints and stone tools part ways, as data on early humans.

What this finding also indicates is that plenty of the country's landscape is still relatively unknown, that it is located within broader like national parks as in this case but hardly comprehended in what it contains on the surface, and indeed just below the surface.

The government is seeking to rectify this situation with extended aerial surveys especially determine the presence of minerals, but as the Ruaha park finding shows, great things can be discovered in a casual, unexpected manner. There is also the trap of expecting to move from rags to riches with tourist findings, minerals or hot water springs, etc and then it turns out to be too familiar.

Conservators at Ruaha assert that the combination of attractions at the new site make it a candidate for geopark status, noting that this phenomenon is fairly rare even at the continental level. An auxiliary aspect is that it may even help to widen the circle of attraction to the southern circuit, lying within the overpowering shadow of the prize laden northern circuit tourist attractions. Such a discovery can also earn a prize of its own in due course, if enough publicists work on the matter.

The publicity has just begun and with more travel agencies now more acutely aware of what is available in the country, the nee discovery might just add the icing they need to add Ruaha part and others on the

southern circuit to their schedules. finding may conservationists in other southern circuit areas to intensify their gaze, for something they may not have noticed. There was a time certain toads were discovered in the Kihansi hydropower zone, an attraction that also pulled plenty of criticism on the project.

FEATURE

Alternative dispute resolution avenues in commercial contracts

agreements or contracts, one of the expressive terms is dispute resolution mechanism. This is a clause narrating the mode of resolving disputes which may arise in the course of implementing the agreed contracts.

Parties can opt for various modes of resolving 2020 hereinafter referred

ABUBAKAR MTORO

as claimed by the appellant.

varying the decision of EWURA.

with requisite jurisdiction or alternative dispute resolution mechanisms. There are various modes of alternative dispute resolution in commercial disputes. These include arbitration, adjudication, negotiation and mediation. This article focuses on arbitration.

The Arbitration Act of Tanzania (Cap 15 R.E

THE UNITED REPUBLIC OF TANZANIA

IN THE FAIR COMPETITION TRIBUNAL OF TANZANIA

AT DAR ES SALAAM

APPEAL NO. 6 OF 2023

BETWEEN

AND

TANZANIA ELECTRIC SUPPLY COMPANY LIMITED1ST RESPONDENT

ENERGY AND WATER UTILITIES REGULATORY AUTHORITY 2ND RESPONDENT

(Notice pursuant to Rule 16 of the Fair Competition Tribunal Rules, 2012)

TAKE NOTICE THAT an appeal has been lodged in the Tribunal against the whole decision

of the Energy and Water Utilities Regulatory Authority (EWURA) dated 31st August, 2023

in which EWURA dealt with complaints of trespass and destruction of farm crops worth

TZS 20,148,100 by the appellant against the 1st respondent. EWURA held that the 1st

respondent did not trespass onto appellant's land thus not entitled to pay compensation

The appeal is based on the ground that **EWURA** erred in law and facts by holding that the

1st respondent did not trespass on the farm contrary to the evidence adduced during

hearing and by not considering the evidence from TANROADS acknowledging the farm of

the appellant. Thus, the appellant prays for orders allowing the appeal in its entirety and

BY THIS PUBLIC NOTICE any person who considers that he has sufficient interest may

apply to intervene in the proceedings within seven days of the first publication of this

notice to the Fair Competition Tribunal, 2nd Floor, Ministry of Higher Education, Science

GIVEN UNDER MY HAND AND SEAL of the Tribunal this 26th October, 2023.

disputes like court of law to as the Act which is the law governing arbitration proceedings in Tanzania defines arbitration as the process by which parties submit a dispute to the decision of a neutral person or persons appointed accordance with the provisions of the Act.

> Such reference to arbitration may arise from the agreement of the parties (private arbitration)

..... APPELLANT

nexed arbitration). This article dwells on private arbitration in which parties to a contract elect for a private dispute settlement procedure instead of going to court.

As pointed out earlier, by mutual consent or in arbitration as a means of dispute resolution mechanism presupposes that there has to be a dispute which needs to be resolved for the parties to embark on arbitration. scope and applicability of arbitration agreement for the same to be effective.

> Section 8 of the Act provides that for the provisions of the Act to be applicable, such agreement has to be in writing. This means that parties to an oral contract cannot apply the provisions of this Act.

The Act has not given specific scope on how to draft arbitration agreement in order for the same to be effective but oftentimes a general provision which stipulates that parties to a contract agree to undertake arbitration as the mode of dispute resolution mechanism will suffice.

However, parties to a contract are at liberty to stipulate the types of disputes which they may wish to refer to arbitration and the ones which they may opt for a different mode of dispute resolution mechanism depending on the nature and complexity of such contracts.

Parties can even agree on the place, language and the number of arbitrators that will adjudicate

their dispute. In the event where a question is raised by either of the parties on whether a certain type of dispute falls within arbitration agreement or not, then that will be a question of construction of forms of the arbitration agreement or clause

by giving the words their

natural and proper mean-

Nevertheless, section 9 of the Act on construction of arbitration clause states that parties can make a reference of an arbitration clause in the contract but in order for such clause reference to be valid, it has to have been intended by the parties to be part of arbitration agreement.

Section 10 talks about separability of arbitration agreement in that where parties agree for a separate arbitration agreement intended for another contract, such arbitration agreement is valid regardless of whether such other contract became ineffectual and such arbitration agreement shall be treated as a distinct agreement.

Section 11 provides that an arbitration agreement shall not be discharged by a death of a party to a clause or inadvertently of

contract unless agreed. These complex requirements of the law need knowledge of a lawyer when constructing an arbitration agreement for the same to be effective.

The effects of having an arbitral clause in a commercial agreement is that parties are bound by it and are bound to undertake arbitration in case of any dispute that may arise out of their contractual relationship.

Further, in accordance with section 60 of the Act 'the award' which is the judgment emanating from the arbitral proceedings shall be final and binding to both parties and to any person claiming through or under them unless parties agrees otherwise.

What powers then do courts of laws have over the agreements which contain arbitration clauses and do these clauses have the effect of ouster jurisdiction of court of law completely?

When disputes arise in commercial agreements, sometimes an aggrieved party may rush to file a dispute in a court of law whether in total disregard of the arbitration

the presence of an arbitration clause.

Under these circum-

stances, the courts have powers to refer parties to arbitration but such reference is made upon application by a party to such arbitration agreement and when such application is made timely not later than the date of submitting the first statement of claim and such application must be accompanied by the original arbitration agreement or a dully certified copy as stipulated in section 12 of the Act.

The fate of a case which has been referred to arbitration is stay of such court proceedings pending finalization of the arbitration proceedings as stipulated under section 13 of the Act.

The proper approach is for the parties to file an application to stay the proceedings as the Act demands but currently most people resort to raising preliminary objection after being aware of existence of a case filed by the opponent in the agreement which in our view is not correct.

Of recent, there has been a wide interpretation of this provision by some judges. For example, in commercial case No 93 of 2022 between Leisure Tours and Holidays Limited vs Market Insight Limited in which a party to this case raised a preliminary objection that "the suit is premature and bad in law as the plaintiff has failed to refer the dispute to arbitration as per the contract."

The presiding judge, while admitting that section 13 of the Act empowers the court to stay the proceedings, said the same does not bar the court from issuing any other consequential orders which it deems fit and in this case the judge went ahead and struck out the case.

However, courts of law also have mandate to order for stay of the case while referring the dispute for arbitration as per the agreement of the parties.

Courts of law also have powers over the awards or judgments which are issued by the arbitration tribunal in that for the same to be enforceable, leave has to be granted by a court of law. This means that upon finalizing the arbitration proceedings, the party in whose favour such proceedings were terminated has to make application for leave prior to enforcing the award.

KAKONO HYDROPOWER PROJECT SECURES EURO149MN FUNDING

By Guardian Reporter

he Kakono hydropower project located in Kagera region has secured funding, after Agence Française de Développement (AFD) and European Union (EU) signed a contract to jointly provide 50 percent of its required funding.

Through the agreement, signed at the Global Gateway Forum in Brussels recently, the EU and the AFD will jointly contribute €146 million, about half of the total cost of €296 million of the pro-

Commissioner for International Partnerships Jutta Urpilainen said: "The recent, first-ever Tanzania-EU Business Forum saw investments worth €1 billion being announced, notably the Kakono hydropower project. I am pleased to follow up with today's signature, with the EU contributing to Tanzania's efforts to diversify its energy sources and bring green energy into the mixing line with the Global Gateway Investment Package for Africa.'

The long-standing cooperation between the EU and Tanzania focuses on the three priority areas of green deals, human capital and employment, and governance.

The EU will invest €36 million in grants in the construction of a

dam on the Kagera River, in a joint project with the French Development Agency (AFD) and the African Development Bank (AfDB) worth €296 million in total.

The hydropower plant will respond to the increasing demand for generation capacity in northern Tanzania and provide a stable supply of power locally in the Lake Victoria Zone and nation-

It will add 87.8MW to Tanzania's national grid and reduce greenhouse gas emissions by 213,810 tons per year, contributing significantly to both economic development and climate change adaptation.

The Global Gateway Forum brings together an assembly of government representatives from the European Union and across the globe, alongside key hydropower plant at the Kakono stakeholders from the private

sector, civil society, thought leaders, financial institutions, and international organisations to promote global investment in in-

frastructure.

During this landmark occasion, a series of strategic investment announcements and agreements with partner countries are being presented, marking a significant leap towards the implementation of the Global Gateway strategy.

These announcements not only underscore the tangible worldwide impact of Global Gateway but also provide a platform for governments and businesses to engage in critical discussions surrounding its priorities, said a statement issued by EU office in Dar es Salaam yesterday.

The Global Gateway Forum highlights a collective commitment to fostering sustainable growth and resilience worldwide through a Team Europe approach.

Global Gateway represents the European Union's effort reduce the worldwide investment disparity and boost smart, clean and secure connections in digital, energy and transport sectors, and to strengthen health, education and research systems.

It provides sustainable investment opportunities to enhance the prosperity and security of our global partners and Europe alike.

The Global Gateway strategy embodies a collaborative approach that brings together the European Union, EU Member States, and European development finance institutions.

Together, we aim to mobilize up to €300 billion in public and private investments from 2021 to 2027, creating essential links rather than dependencies, and closing the global investment gap.

"Team Europe stands out with a compelling proposition for democratic partner nations, focusing on sustainability across social, environmental, and financial aspects, promoting longterm drivers of growth through a comprehensive 360-degree approach, encompassing both hard and soft infrastructure, and reinforcing the resilience of nations seeking strategic autonomy," the statement said.

TBL extends innovative skills to develop retailers

By Carlos Banda

Tanzania Breweries Limited (TBL) has kicked off a training program dubbed 'Retailers Development Program' to build capacity and impart skills to retailers so that they can become innovative and capable of expanding the firm's market

Speaking to journalists in Dar es Salaam yesterday at the closing ceremony of the training program, TBL Sustainability Program Manager, Siya Mbuya, said the program, executed under the parent company AB InBev, aimed at helping retailers to understand better ways of running their businesses.

"As TBL, the program started fiveyears ago, but it halted because we wanted to listen and point places that needed improvement and the gaps that we needed to cover. That is why we decided to revive it and show the retailer that his/her success depends on their innovative ways of running a business," said

Siya explained that the program has many modules but the key area is on how the retailers can expand their sales and offer quality customer service and have the capability to attract customers, citing that, successful implementation of the knowledge acquired by the retailers could also pave way for TBL to expand its market share.

On her part, TBL Customer Service Supervisor who doubles as the Supervisor for the Innovation and Digital Department, Restituta Masondore, said the company has also launched a digital service called Bees application software for helping customers to make orders at the convenience using their mobile phones.

Commenting on the training program, Catherine Mabula, TBL Communication and Corporate Affairs Manager said that the program kicked off as a pilot program with 100 participants who have been active users of a Bees Application invented by TBL to help customers place orders and allays issues that would want TBL to know and work

"The Retailer Development Program started with 100 participants since it is a pilot program. The primary qualification factor we used is that a participant must be an active user of our Bees Application - which is our daily ordering platform. As for those who did not participate now, they will have a chance in the next phase next year," said Mabula.

Mabula noted the training modules for the program included knowledge on differentiating expenses, handling funds, business growth, branding and utilization of the Bees application.

Speaking about the benefits of the program to her business, Catherine Gumbo, complimented TBL's capacity program for retailers highlighting that through the training she will be able to set a new course for her business because the knowledge on recording keeping and making sales performance will help her grow her business and improve efficiently.

CONSTRUCTION

RESEARCHERS SEEK WAYS TO IMPROVE RECYCLED CONCRETE FOR CONSTRUCTION

NEW YORK

niversity of Nebraska researchers are studying the economic and practical feasibility of using recycled concrete as a building material and as a source of carbon sequestra-

The project is funded by an \$805,000 grant from the Department of Energy, one of 33 grants totaling \$131 million awarded this year as part of its goal to achieve net-zero greenhouse gas emissions by 2050. Matching funding takes the total to more than \$1 million.

More than 1.8 billion tons of concrete is used in construction every year in the United States alone, and its production is a prolific generator of carbon emissions; for every ton produced, a nearly equal amount of carbon dioxide, a greenhouse gas linked to global warming, is released into the atmosphere.

"Also, we tear down lots of structures - infrastructure, buildings, so on," said Seunghee Kim, associate professor of civil and environmental engineering at Nebraska and one of the research team's leaders. "Whenever we tear down, there's a lot of waste concrete," much of which ends up in landfills.

Waste concrete also can be crushed and processed into

concrete aggregate and reused in construction, but it's weaker than original concrete. Earlier research by Kim has found RCA can be strengthened through a process called carbonation: calcium hydroxide and calcium silicate hydrate, both found in concrete, can react with carbon dioxide to form a compound called calcium carbonate, which strengthens the RCA.

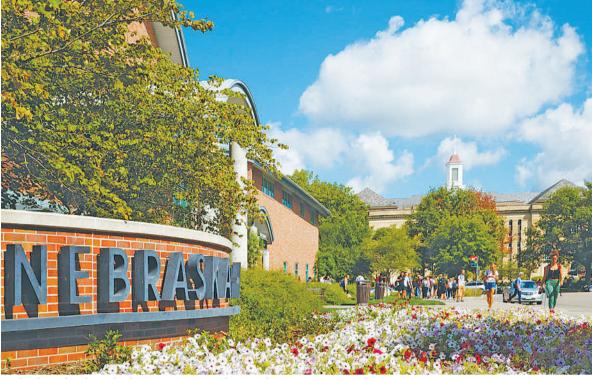

Because concrete absorbs carbon dioxide, the gas is captured within the calcium carbonate and permanently stored there.

Recycled concrete aggregate, which often ends up in landfills, can be strengthened as a construction material and used for carbon sequestration through carbonation.

Recycled concrete aggregate, which often ends up in landfills, can be strengthened as a construction material and used for carbon sequestration through carbonation.

The new DOE funding will enable Kim and others to expand from successful, but small-scale, lab experiments, in 10- and 30-gallon chambers, to much larger-scale production in a oneton capacity reaction chamber. A private construction company based in Omaha, Hawkins Construction, is collaborating on the

The specialized reactor will aca material known as recycled celerate the carbonation process

and identify the ideal pressure and carbon dioxide levels needed to modify recycled concrete aggregate.

"On the one hand, this process can make the RCA stronger. But also we can sequester carbon dioxide," Kim said. "It's a win-win."

The research will include analysis of RCA properties, such as residual mortar content, chemical composition, aggregate crushing value, freeze-thaw resistance, abrasion resistance, pH and concentration of heavy metals in leachate water.

Christopher Exstrom, chemistry professor at the University of Nebraska at Kearney, will lead undergraduate students in conducting chemical analyses on the samples "to make this carbonation reaction more efficient and more productive," he said.

His role is to help determine the mechanisms by which recycled concrete aggregate reacts with carbon dioxide, as well as analyze concrete samples using X-ray diffraction, thermogravimetric analysis, infrared spectroscopy and scanning electron

Ultimately, Exstrom said, this research could lead to more recycled concrete being used in construction, reducing the industry's carbon footprint.

Kim said the pathway of this research exemplifies UNL's research-funding pipeline; it began a few years ago with internal grant funding, later was supported by the Nebraska Department of Economic Development and has grown to be a DOE-supported project, part of a national move US. to reduce greenhouse gases.

Hawkins Construction is participating because private industry wants to know "if they can make this work economically. Does it make sense for them?" Kim said.

Eric Thompson, K.H. Nelson College Professor of economics and director of the Bureau of Business Research at Nebraska, is part of the research team, focused on those economic questions.

"A number of private sector companies are interested, when feasible, in addressing climate change," Thompson said. "There's reason to believe there's a market out there for people who'd prefer to use concrete that is more carbon neutral. The question is how large are those markets? ... What are the costs of using this technology? There's a number of questions of interest to economists."

The research has far-reaching implications for the concrete industry, said Jiong Hu, professor of civil and environmental engineering and another member of the research team.

"There's tremendous pressure on the concrete industry, largely because of its carbon footprint," Hu said. "This is something that would not just benefit the concrete industry, but society, too."

The research could lead to at least 20 million tons of permanent CO2 storage per year in the

Ecobank (T) celebrates 10th anniversary by empowering digital skills

By Guardian Correspondent

Ecobank Tanzania, an affiliate of Ecobank Group, in partnership with Shule Direct has donated one-year subscription fee for the Shule Direct online learning platform, 13 tablets for the use of students and provide funding for renovation of the computer laboratory to Mugabe Secondary school in Sinza, Dar es Salaam at the occasion of the 10th anniversary of its annual Ecobank

rate and social responsibility event in which Ecobank and its employees give back to their communities.

This donation aligns with the launch of a new three-year Ecobank Day campaign launched across Ecobank's 33 affiliates.

The theme of this triannual campaign is: 'Transforming Africa Through Education'. The first year of the campaign will focus on digital education and creating opportunities for children and youth Ecobank Day is the so that they will receive

need for the jobs of tomor-

Ecobank, seeks to construct 33 IT labs across its footprint as part of its 10 years of Ecobank Day initiatives. Charles Asiedu, Managing Director, Ecobank Tanzania, said: "Tanzania's population is forecast to reach 129.4 million bank's flagship corpo- the digital skills they by 2050, and it is vital that

the best possible set of skills that will set them up for the tomorrow's jobs. We are in era of rapid technological advances with digital skills increasingly in demand by employers. We are particularly proud to be part of the new digital education narrative in in Africa (2013); Malaria

we equip our youth with nation. I want to thank our partner, Shule Direct who made this day a reality for our youths."

Ecobank Day has supported and furthered a wide range of important causes every year since 2013. These have been Education for young people Tanzania through this do- prevention and control

(2014); Every African child deserves a better future (2015); ICT education in schools and improving maternal health (2016); Safe water management (2017); Orphanages (2018); Cancer (2019); Diabetes (2020); Mental health (2021) and financial literacy and financial inclusion

NEW YORK A measure of applications to finance home purchases slid to the lowest level since 1995 as mortgage rates approached 8 percent, underscoring how mounting affordability challenges

US mortgage

rate nears 8 pc

are crimping demand. The Mortgage Bankers Association's

index of home-purchase applications decreased 2.2 percent in the week ended Oct. 20 to 127, the lowest level since The contract rate on a 30-year fixed

mortgage climbed for a seventhstraight week to 7.9 percent, data out Wednesday showed. Taking mortgage-related fees and

compound interest into account, the effective rate surpassed 8 percent for the first time in 23 years.

The rate on a five-year adjustable mortgage climbed almost half a percentage point, the most since early June, to almost 7 percent.

Ryan Marshall, chief executive officer at PulteGroup Inc., said Tuesday on the homebuilder's earnings call that "demand has been a little choppier" in early October. "I'm sure for some buyers, higher rates have pushed affordability just that much further away, while others may be worried about their jobs."

Mortgage rates tend to move in tandem with Treasury yields. With the 10-year yield rising above 5 percent for the first time in 16 years earlier this week, home borrowing costs are at risk of climbing further in the weeks ahead.

Since the first week of April, the contract rate on a 30-year fixed mortgage has soared more than 1.5 percentage points.

Without a meaningful easing in borrowing costs, it's not clear when affordability - currently at a record low - will improve for potential buyers. With inventory limited, prices remain high.

The overall index of applications, which includes purchases and refinancing, also fell to the lowest level since 1995. Refinancing activity picked up slightly.

The MBA survey, which has been conducted weekly since 1990, uses responses from mortgage bankers, commercial banks and thrifts. The data cover more than 75 percent of all retail residential mortgage applications in the US.

Boeing cuts annual 737 delivery target in wake of supplier errors

BENGALURU

Boeing on Wednesday cut its 737 delivery forecast for this year due to quality issues at supplier Spirit AeroSystems, a temporary setback to the plane maker that is looking to recover from its own set of crises.

The company was aiming to deliver 400 to 450 737 jets in 2023 but was forced to temper that goal to 375 to 400 jets after two separate quality issues at Spirit, which makes fuselages for the cash-cow narrowbody

Despite falling short on projected 737 deliveries, Boeing stuck to its goal of generating \$3

billion to \$5 billion in free cash flow and intends to keep its 737 production ramp up plan intact.

It also plans to meet a delivery target of at least 70 widebody 787 Dreamliners in 2023 and is transitioning from a production rate of four to five jets per month.

Meanwhile, the company's

ailing defense business continues to struggle with cost overruns on fixed price contracts

It reported another quarter of negative margins due to charges on the next-generation Air Force One and an unspecified satellite program.

Earlier this month, Boeing said it had expanded the scope

Trump fined \$10,000 for second gag-order violation

DONALD Trump was called to the witness stand and fined \$10,000 on Wednesday by a judge overseeing his civil fraud trial who found that the former president had violated for a second time a gag order barring him from disparaging court staff.

Judge Arthur Engoron fined Trump for comments that he made after he breached the terms of an Oct 3 gag order. It was the second time that Trump broke the gag order in less than a week.

Engoron had imposed the order after Trump shared on social media a photo of the judge's top clerk posing with US Senate Majority Leader Chuck Schumer, a Democrat, and falsely called her Schumer's "girlfriend".

It was the second time that Trump broke the gag order in less than a week.

Trump was summoned from the defense table to testify about his comment to reporters hours earlier when he claimed that "a person who's very partisan (is) sitting alongside" the judge.

Engoron's clerk has sat next to him during the trial, standard practice in a New York state court.

Trump's lawyers said that the comment related to the witness Michael Cohen, Trump's former longtime personal attorney and "fixer", and not about the court's clerk.

Trump, while under oath, blurted out to the judge from the witness stand that his remarks had been directed at "you and Cohen".

He then lashed out at the clerk, saying: "I think she's very biased against us; I think we've made that clear."

The judge rejected the idea that the "partisan" person Trump mentioned was Cohen. "The idea that that statement would refer to the witness, that doesn't make sense to me," Engoron said. "Don't do it again or it will be worse.'

Trump's lawyers protested the \$10,000 fine and doubled down on accusing the clerk of bias.

Engoron had previously warned anyone taking part in the trial not to comment on any members of staff or they

Former US president Donald Trump waits for the continuation of his civil business fraud trial at New York Supreme Court, Oct 25, 2023, in New York. AP

would face penalties.

The judge did that after Trump took to his Truth Social site to write the post about Schumer.

The judge ordered Trump to take down the post and he did. But it remained up on his campaign website, breaching the agreement. He was fined \$5,000 for that violation on Oct 20.

Media reports said a red-faced and angrylooking Trump stormed out of the Manhattan courtroom about 45 minutes later after the judge denied a motion from his lawyers on a separate legal issue. The abrupt departure caused gasps throughout the courtroom.

"The witness just admitted that we won the trial, and the judge should end this trial immediately. Thank you," Trump told reporters after he left.

Cohen testified Wednesday for the second time in the trial. He was peppered with questions by the defense team who called into question the credibility of Trump's former lawyer turned foe.

Trump lawyer Alina Habba asked why Cohen had turned against Trump. She said that it was because in 2018, Cohen had begun to have legal problems regarding his former boss and hinted that he may have felt snubbed after being turned down for a job in the Trump White House.

Cohen stressed that he had never wanted a job in the White House but admitted that he did have animosity toward his former employer.

Habba asked Cohen: "You have made a career out of publicly attacking President Trump, haven't you?"

Cohen replied, "Yes."

Cohen was prosecuted by the federal government for making false statements on a bank loan application, making illegal contributions to Trump's campaign, lying to Congress, and tax eva-

Cohen admitted Tuesday that he had lied when he pleaded guilty to tax evasion and had lied on his loan application. He said he had done so by making it look like he hadn't filed the correct documents.

Following time in prison, Cohen switched sides from his former boss and is now working as a witness for New York Attorney General Letitia James' civil case against Trump.

James alleges that Trump routinely increased the value of his real estate portfolio on his financial documents to get a better rate on loans and other deals. The trial largely concerns damages.

The attorney general wants at least \$250 million in fines, a permanent ban against Trump and sons Eric and Donald Jr from running businesses in New York, and a five-year commercial real estate ban against Trump and the Trump Organization.

Cohen testified during his first day that Trump increased his net worth at a whim. Cohen said he and other employees would inflate the estimated values of his property holdings to get favorable rates on loans and insurance.

Trump has denied any wrongdoing. He accuses James, a Democrat, of being biased against him.

After Wednesday's proceedings, Trump stood outside the court and called the trial "very unfair" and a "pure political witch hunt".

Citing Cohen's admission of lying, Trump said "that should be the end of the case".

James responded outside the court, saying, "We have sufficient evidence to prove that Mr Trump and the Trump organization committed widespread fraud."

Russia calls for cessation of hostilities in Palestinian-Israeli conflict, says Lavrov

RUSSIA calls for an immediate cessation of hostilities in the Palestinian-Israeli conflict, as well as for negotiations on the establishment of a Palestinian state, Russian Foreign Minister Sergey Lavrov said.

"Russia condemns terrorist actions and all other

actions that violate international humanitarian law and cause harm to the civilian population, and calls for an immediate cessation of hostilities and the resumption of negotiations on the establishment of an independent Palestinian state, which was solemnly promised to the Palestinians almost 75 years ago," the top diplomat said at a plenary session of a high-level conference on Eurasian security in Minsk.

According to Lavrov, Washington's attempts to monopolize the Middle East settlement process have led to the current disastrous situation.

"Given the West's destructive line to undermine the sustainable development of Eurasia, its lack of readiness for fair competition and joint work, the task of forming a new continental architecture of equal and indivisible security is more urgent than ever, which is actually the goal of the conference created on the initiative of Belarusian President [Alexander Lukashenko], an architecture maximally open to the widest possible range of states ready for equal and constructive interaction," the Russian foreign minister said.

According to Lavrov, one of the main goals is to "sew" Eurasia into a unified space to face common challenges in the name of peace and prosperity of all its peoples.

Tensions flared up again in the Middle East on October 7 when militants from the Gaza-based Palestinian radical group Hamas staged a surprise incursion into Israeli territory from the Gaza Strip.

Hamas described its attack as a response to the aggressive actions of Israeli authorities against the Al-Aqsa Mosque on the Temple Mount in Jerusalem's Old City. In response, Israel announced a total blockade of the Gaza Strip and began delivering air strikes on the enclave and certain parts of Lebanon and Syria. Clashes are underway in the West Bank of the Jordan River as well.

Israeli army says tanks raid northern Gaza Strip Israeli airstrikes on the Gaza Strip

GAZA/BEIRUT/JERUSALEM

ISRAELI tanks and infantry raided the northern Gaza Strip in a predawn attack yesterday, the Israel Defense Forces (IDF) said in a statement.

The military said that forces conducted "a targeted raid" using tanks in the northern Gaza Strip. According to the statement, the raid was "part of preparations for the next stages of combat", in which Israel plans a ground offensive in Gaza.

During the raid, soldiers located and struck "numerous" militants, bombardment and artillery shellings infrastructure and anti-tank missile launch posts and "operated to prepare the battlefield," IDF said. According to a statement, the sol-

diers have since exited the area and returned to Israeli territory.

There were no reports of casualties on the Israeli side, and the soldiers exited the area at the end of the incursion.

At least 6,546 people have been killed in Gaza since Israel launched its war on Hamas on Oct 7 following Hamas' onslaught on communities in southern Israel earlier that day. The death toll of Palestinians from

has risen to 6,546, said the Hamasrun Health Ministry in Gaza Strip on Wednesday. Meanwhile, 17,439 Palestinians were wounded in the coastal enclave, the ministry said in a statement. Over the past two days, Israel has intensified airstrikes and artillery shelling against the Gaza Strip, said Palestinian security sources and local eyewitnesses. The United Nations Office for the Coordination of Humanitarian Affairs said in a statement on Wednesday Israel's aerial have increased three-fold compared to previous days.

The Israel Defense Forces (IDF) said Wednesday that it identified at least two Hamas "terrorists" that attempted to infiltrate Israeli territory in the area of Zikim via the sea, after Hamas armed wing Al-Qassam Brigades said its fighters had infiltrated Israel's Zikim base in Ashkelon and clashed with its forces.

On Wednesday morning, the IDF said on social media platform X that its extensive attacks on Gaza during the past day had eliminated Hamas operatives and infrastructure, in-

People distribute food at a makeshift camp for displaced people in Khan Yunis in the southern Gaza Strip on Monday, as battles between Israel and the Palestinian Hamas movement continue. AFP

cluding tunnel shafts, military headquarters, munitions warehouses and mortar bomb and anti-tank missile launchers.

The Israeli airstrikes and punitive measures, including a siege on the enclave with supplies of water, electricity, fuel, and other necessities being cut off, were triggered by a largescale Hamas attack on Israeli military

targets and towns on Oct 7, which has so far killed at least 1,400 people in Israel. On Wednesday, 10 Palestinians were killed in an aircraft bombardment on "the only bakery" in the al-Mughazi refugee camp in central Gaza, which also destroyed several surrounding houses, said Salama Maarouf, head of the Hamas-run government media office in Gaza.

The United Nations Relief and Works Agency for Palestine Refugees, said only four of the 24 bakeries it contracted still supply bread for shelters, warning that most of the remaining ones might close soon due to fuel shortages.

The UNRWA, which is by far the largest humanitarian provider in Gaza, warned that the agency will be forced to halt all operations by Wednesday night unless fuel is allowed into Gaza immediately.

Hamas media office said that Israel had bombed Gaza with more than 12,000 tons of explosives, equals to dropping 33 tons per square km, leading to the damages of more than 183,000 housing units, or 50 percent of all housing in Gaza.

The UN Office for the Coordination of Humanitarian Affairs said Wednesday that the humanitarian crisis in Gaza has reached an unprecedented point. Hospitals are shutting down as they lack fuel, water, medical supplies and personnel. Fuel is being severely rationed for a select number of critical facilities. The backup generators are not designed for continuous o peration and could break, said OCHA.

Israeli official 'shocked' by UN Secretary General's 'understanding for terrorism and murder'

TEL AVIV

UN Secretary-General Antonio Guterres' comments during a special session of the UN Security Council on the war in Gaza against the terrorist group Hamas were met with shock and disappointment by Israel's delegation.

Guterres only made perfunctory condemnations of the Hamas attack while taking the opportunity to repeat what can only be called Hamas propaganda.

"It is important to also recognise that the attacks by Hamas did not happen in a vacuum," he said.

"The Palestinian people have been subjected to 56 years of suffocating occupation. They have seen their land steadily devoured by settlements and plagued by violence; their economy stifled; their people displaced; and their homes demolished. Their hopes for a political solution to their plight have been vanishing.

He did acknowledge, however, that family members of the more than 200 Israeli hostages held by Hamas in Gaza were in attendance and called for the release of all of the hostages.

Israel's Ambassador to the UN Gilad Erdan wasted no time criticising Guterres' words. He posted a statement on Twitter saying, "The shocking speech by the UN Secretary-General at the Security Council meeting, while rockets are being fired at all of Israel, proved conclusively, beyond any doubt, that the Secretary-General is completely disconnected from the reality in our region and that he views the massacre committed by Nazi Hamas terrorists in a distorted and immoral manner."

The Secretary General's statement that, "the attacks by Hamas did not happen in a vacuum," said Ambassador Erdan, "expressed an understanding for terrorism and murder. It's really unfathomable. It's truly sad that the head of an organisation that arose after the Holocaust holds such horrible views. A tragedy!"

Biden honours Indian-American scientists for lifesaving medical discoveries

WASHINGTON

TWO Indian American scientists were awarded the National Medal of Technology and Innovation by US President Joe Biden at the White House on Tuesday.

The two Indian-Americans --Ashok Gadgil and Subra Suresh -were awarded the National Medal of Technology and Innovation and the National Medal of Science, respectively.

President Biden also honoured

leading American scientists, tech- a number of Americans who have nologists, and innovators at the award ceremony.

The scientists, who were honoured at the event, made discoveries enabling lifesaving medical treatments, helping fight the opioid epidemic, improving food security, advancing accessibility, and much more.

"Today, President Biden is awarding the National Medal of Science and the National Medal of Technology and Innovation to made exemplary achievements in science, technology, and innovation to strengthen our nation's well-being, "the White House said in a statement.

The National Medal of Science is the nation's highest scientific honour, established by the US Congress in 1959 and administered by the US National Science Foundation.

"It is bestowed by the President of the United States on individuals deserving of special recognition for their outstanding contributions in biology, computer sciences, education sciences, engineering, geosciences, mathematical and physical sciences, and social, behavioural, and economic sciences, in service to the Natio," the statement added.

"Those who earn these awards embody the promise of America by pushing the boundaries of what is possible," it added.

Further, according to the official

statement, these trailblazers harnessed the power of science and technology to tackle challenging problems and deliver innovative solutions for Americans and communities worldwide.

The accomplishments made by the awardees have advanced American leadership in science, technology, and innovation and their work inspires the next generation of American minds, it added.

Pursuing global modernisation for peaceful development, mutually beneficial cooperation, prosperity for all

GLOBAL modernization should be pursued to enhance peaceful development and mutually beneficial cooperation and bring prosperity to all, said Chinese President Xi Jinping when addressing the opening ceremony of the third Belt and Road Forum for Interna-

tional Cooperation (BRF). This grand vision is consistent with building a community with a shared future for mankind, and charts the course for high-quality Belt and Road coopera-

The Belt and Road Initiative (BRI) has forged a cooperation platform for common development, and enabled many developing countries to accelerate their progress of modernization. In the future, it will get onto a new stage of higher-quality and higher-level development, and portrait a grand picture of countries working together for modernization.

"China is endeavoring to build itself into a stronger country and rejuvenate the Chinese nation on all fronts by pursuing Chinese modernization. The modernization we are pursuing is not for China alone, but for all develop-

ing countries through our joint efforts." Xi's words explained the logic of "When China does well, the world will

get even better." and revealed China's intention to seek win-win cooperation and common development in promoting the BRI.

To achieve modernization is a shared dream of people of all countries, and no country shall be left behind in humanity's modernization process.

 $The \, BRI, taking \, building \, a \, community \,$ with a shared future for mankind as the ultimate goal, is a path to modernization for all countries as well as a path to a bright future for humanity. With the initiative, countries can independently explore a path to modernization that suits their own national realities and share the opportunities created by Chinese modernization.

British scholar Martin Jacques said that Chinese modernization in essence is providing opportunities to the world, especially developing countries.

The BRI injects impetus into the realization of global modernization. Over the past decade, Belt and Road international cooperation has gotten off the ground, turning blueprints into real projects. It has launched thousands of practical cooperation projects, and achieved fruitful and tangible outcomes. From the massive infrastructure pro-

jects that vitalize participating coun-

tries' development momentum, to industrial cooperation aiming to enhance these countries' poverty reduction capabilities, the BRI focuses on tackling the bottlenecks containing participating countries' development and has contributed to the modernization of all

At the opening ceremony of the third BRF, Xi announced eight major steps China will take to support the joint pursuit of high-quality Belt and Road cooperation. These steps include both concrete measures and long-term mechanisms, injecting new momentum into humanity's global modernization

process with action-oriented, efficient and pragmatic efforts.

Foreign dignitaries commended the BRI for bringing opportunities to their countries' development. Some said the initiative effectively promoted Egypt's economic development and created important opportunities for developing countries, and some said the eight major steps will further assist Africa in achieving industrialization, agricultural modernization and economic integration. They are expecting high-quality Belt and Road cooperation to continue powering their countries' modernization process. **People's Daily**

Russia regrets that UNSC fell short of expectations – UN envoy

UNITED NATIONS

RUSSIA regrets that the UN Security Council has fallen short of expectation, despite Moscow's efforts, Russian Permanent Representative to the United Nations Vasily Nebenzya (pictured) said on Wednesday.

"We regret that the Security Council has failed take another opportunity to respond to the unprecedented crisis in the Middle East. It has fallen short of expectations. We did our best to help it,"

After the UN Security Council failed to adopt either Russia-or Brazil-drafted resolution on the Palestinian-Israeli conflict, Moscow offered another document.

The 15-provision draft incorporated some elements from both Brazilian and US drafts, including Russian amendments to the Brazilian version. In particular, it condemns the radical Palestinian movement Hamas' attacks on Israel, and calls for an immediate ceasefire, the establishment of humanitarian corridors and the release of all hostages. It also contains a proposal to cancel Israel's order on the evacuation of Gaza Strip residents to the south of the enclave.

On October 25, the UN Security Council did not pass the Russia-initiated draft resolution on the Palestinian-Israeli conflict. The document was supported by four out of the 15 Security Council members. The United States and the United Kingdom voted against, the rest abstained.

A resolution is adopted when supported by nine Security Council members and is not vetoed by any.

Netanyahu draws comparison between recent Hamas attack, Holocaust

TEL AVIV

PRIME Minister Benjamin Netanyahu, addressing the ongoing Israel-Hamas war alongside French President Emmanuel Macron, drew a parallel between the Hamas attack on October 7 and the Holocaust.

In his speech, he referenced historical tragedies like Babyn Yar and Anne Frank to highlight the atrocities com-

"On October 7, Hamas waged war on Israel. It was the worst terrorist attack the world has known since 9/11, but for Israel, proportionately, it was like twenty 9/11s. It was the worst act of anti-Semitic violence since the holocaust" Benjamin Netanyahu said.

"It's impossible to describe all of the horrors, but like Anne Frank, Jewish children hid in attics from these monsters, and they were found and butchered. As in Babi Yar, Jews were machine-gunned" he added.

"Hamas butchered, Hamas beheaded Hamas burned babies alive. Hamas raped, Hamas kidnapped - hostages, over 200 - babies, children, elderly, Holocaust survivors. We are in a war between barbarism and civilization" Netanyahu added.

Further, Netanyahu contended that Hamas's actions pose a threat not only to Jews but also to the Middle East, Europe, and the world at large.

The Israeli PM branded Gaza as "an enclave of ISIS.'

He asserted, "We are committed to taking all necessary measures to dismantle Hamas in Gaza, including its terror infrastructure and political apparatus. Our priority is to secure the release of our hostages and minimize harm to Palestinian civilians.'

Netanyahu underscored the primary objective of the conflict as the destruction of Hamas. "Hamas must be destroyed," he said.

Netanyahu's statement came following his meeting with French President Emmanuel Macron.

Netanyahu also said that his country's military will "destroy Hamas", and once the war is over no one will have to live "under Hamas's tyranny".

ism is the "common enemy" of Israel and France.

Meanwhile, Macron said that terror-

"You are not alone," the French President said.

At least, thirty French people were also killed in the Hamas attacks, which Israel said left 1,400 dead, Al Jazeera

"I propose the coalition against Islamic State [ISIL-ISIS] also fight Hamas. France is ready for the international coalition against Daesh - in which we are taking part for operations in Iraq and Syria - to also fight against Hamas," said Macron.

French President Macron who is visiting Israel to express his country's "full solidarity" with the Jewish State, will also meet his Palestinian counterpart Mahmoud Abbas in Ramallah on Tuesday, The Times of Israel reported the Palestinian Authority leader's office as saying.

He would be the first world leader to visit the Palestinian Authority headquarters in the West Bank amid the

The French Presidency did not immediately confirm the meeting, according to The Times of Israel.

Louisiana Republican Mike Johnson elected new US House speaker

WASHINGTON

LOUISIANA Republican Rep. Mike Johnson, vice chairman of the U.S. House Republican conference, was elected the new House speaker in a full chamber vote Wednesday, bringing weeks of chaos to a momentary halt as Republicans struggled to find a replacement after the historical ouster of Kevin McCarthy.

Johnson, the fourth Republican nominee, won the gavel by a vote of 220-209, with unanimous Republican support.

Previous nominees -- House Majority Leader Steve Scalise, the No. 2 Republican in the House of Representatives, Chairman of the Tom Emmer -- all failed to garner nominee for speaker.

enough Republican votes needed to reach the majority threshold.

On Tuesday, McCarthy said his party was House Judiciary Committee Jim in "a very bad place" as certain lawmakers Jordan, and House Majority Whip continued to hold out against backing the

Johnson, considered a conservative in the party, managed to win votes both from right-wing conservatives who criticized McCarthy, and from moderates who opposed hardline conservative Jordan.

Calling him "a relatively inexperienced speaker," NBC News said Johnson had a shorter length of service in the House than past speakers in modern history, with fewer than seven years under his belt.

McCarthy, for example, was in the House for 16 years before being elected speaker. The House has been leaderless for three weeks, after McCarthy was unprecedentedly removed from his position on Oct. 3, in a move initiated by a conservative member of his own party. Eight Republicans voted with Democrats in the historical ouster.

The House has never been speakerless for so long mid-session, The Washington Post said in a recent analysis, noting that he House was already operating at an unususpeaker in place. ally unproductive pace.

YouGov's recent polling for the Economist suggested that Americans think the lack of a speaker and the struggle to elect a replacement is hurting the ability of the government to function.

Lawmakers need to pass a spending bill before government funding runs out in mid-Novem-

The House is also under pressure to take action amid the escalating Palestinian-Israeli conflict.Weeks of chaos shows that moderates and right-wing conservatives within the Republican Party find it extremely difficult to reach an agreement on the way forward, and the intraparty fight could continue to paralyze the lower chamber even with a

China to firmly support high-quality **Belt and Road cooperation**

CHINESE President Xi Jinping announced eight major steps China will take to support high-quality Belt and Road cooperation at the opening ceremony of the third Belt and Road Forum for International Cooperation (BRF), injecting confidence and impetus into jointly creating a prosperous

The eight major steps include concrete goals, as well as important cooperation initiatives and institutional measures - building a multidimensional Belt and Road connectivity network, supporting an open world economy, carrying out practical cooperation, promoting green development, advancing scientific and technological innovation, supporting people-to-people exchanges, promoting integrity-based Belt and Road cooperation, and strengthening institutional building for international Belt and Road cooperation.

These major steps are in line with promoting high-quality Belt and Road cooperation, as well as the sustainable development of Belt and Road countries.

The steps have evoked strong resonance from all relevant parties. Some said the eight major steps inspire every participant in the Belt and Road Initiative (BRI) and demonstrate China's commitment to practical cooperation and sharing opportunities. Some said these steps provide guidance for deepening Belt and Road international coopera-

The eight major steps manifest the synergy of high-quality Belt and Road cooperation.

Belt and Road countries have formed synergy among their policy coordination and development planning through international cooperation. Aiming for high-standard, sustainable and people-centered progress, they deliver benefits to all the people with fruitful results and contribute to their social and economic development.

China will speed up the high-quality development of the China-Europe Railway Express and vigorously integrate ports, shipping and trading services under the "Silk Road Maritime.'

It will establish pilot zones for Silk Road e-commerce cooperation and enter into free trade agreements and investment protection treaties with more countries.

The country will remove all restrictions on foreign investment access in the manufacturing sector and hold the Global Digital Trade Expo annually. It will promote both signature projects and "small yet smart" livelihood pro-

Besides, China will host the Liangzhu Forum to enhance dialogue on civilizations with BRI partner coun-

Promoting connectivity, mutual benefit, common development, cooperation and win-win outcomes, the BRI will continue to gather positive energy for development.

International observers noted that these Chinese measures will further promote international trade and investment, foster global economic growth and make new contributions to improving global economic governance.

The eight major steps focus on the new development of high-quality Belt and Road cooperation. To pursue the philosophy of open, green and clean co-

operation is an essential requirement for promoting the high-quality development of the BRI. China will continue tion.

Thailand. The project was put into use in September this year. (People's Daily/Sun Guangyong)

to deepen cooperation in areas such as green infrastructure, green energy and green transportation, step up support for the BRI International Green Development Coalition, and implement the Green Investment Principles for the Belt and Road.

China will continue to implement the Belt and Road Science, Technology and Innovation Cooperation Action Plan, hold the first Belt and Road Conference on Science and Technology Exchange, and increase the number of joint laboratories built with other parties to 100 in the next

China has put forward the Global Initiative for Artificial Intelligence (AI) Governance. It stands ready to increase exchanges and dialogue with other countries and jointly promote the sound, orderly and secure AI development in the world.

Together with its cooperation partners, China released the Achievements and Prospects of Belt and Road Integrity Building and the High-Level Principles on Belt and Road Integrity Building.

It is believed globally that Belt and Road cooperation on digital and green development is painting a promising picture of economic growth, win-win cooperation, and common prosperity for participating countries.

The eight major steps improve mechanisms for high-quality Belt and Road international coopera-

China will work with its BRI partner countries to strengthen the building of multilateral cooperation platforms covering energy, taxation, finance, green development, disaster reduction, anti-corruption, think tank, media, culture and other fields. China will continue to host the BRF and establish a secretariat for the Forum.

According to a chair's statement of the third BRF, China has launched together with its cooperation partners more than 20 multilateral dialogue and cooperation platforms. The measures will play an important role in promoting mechanism construction and the implementation of projects. Kirill Babaev, director of the Institute of China

and Modern Asia at the Russian Academy of Sciences, noted that the eight major steps announced by Xi will make the BRI achievements more impressive in the future.

"Belt and Road cooperation, robust and fruitful in its first decade, is now full of dynamism and vitality. We must embark with drive and enthusiasm on the new journey toward another golden decade," Xi said.

As long as all parties make continuous efforts, the BRI will surely embrace higher-quality and higher-level development, providing impetus for economic growth and common development of

Moroccan aircraft with charitable aid for Palestinians arrive in Egypt

ELARICH

TWO Moroccan military aircraft carrying emergency humanitarian aid for Palestinian populations arrived, on Wednesday morning, at El Arich airport (eastern

HM King Mohammed VI, Chairman of the Al-Quds Committee, aimed at delivering emergency humanitarian aid to the Palestinians. The two aircraft, whose cargo will be transported to the Gaza Strip via the Rafah

This humanitarian initiative comes in accordance with the High Instructions of

land border crossing, are carrying large quantities of food, medical products and

The operation to receive this aid at El Arich airport was supervised by the Kingdom's Ambassador in Cairo and its permanent delegate to the Arab League, Ahmed Tazi, as well as members of the Moroccan embassy.

Tazi said that these aids bear witness to HM the King's constant commitment to the Palestinian cause, noting that all the departments concerned have been mobilized to speed up the implementation of this operation and the delivery of these aids to the Palestinians, in accordance with HM the King's High Instructions.

This humanitarian aid will be handed over to the Egyptian Red Crescent, which will take charge of transporting it to the Palestinian territories in coordination with the relevant Palestinian authorities, he added, pointing out that this operation is being carried out in accordance with arrangements coordinated with the Egyptian authorities, given the security conditions surrounding the Rafah crossing.

'My mission is to build concrete cooperation projects that bring people of India, France closer'

NEW DELHI

FRENCH Ambassador to India Thierry Mathou has said that his mission is to build concrete cooperation projects that bring the people of France and India closer, make the two nations more prosperous and protect the planet.

Mathou was among the envoys of five countries who presented their credentials to President Droupadi Murmu at a ceremony held at Rashtrapati Bhavan in the national capital on Monday.

Mathou said he paid homage to Mahatma Gandhi at Rajghat after presenting his credentials.

In a post on social media app X, the French envoy invited people to share their opinions and ideas for France and India.

Taking to X, Thierry Mathou posted video on X and said, "I just had the honour it of presenting my letter of

credence to President Draupadi Murmu. This marked the official beginning of my mission as ambassador of France to India. Today, I've come here at Rajghat to pay homage to the Mahatma and draw inspiration from his timeless message.

"Once described by the famous French historian as the "matrix of the world" India plays a special role on the global stage and has a special relationship with France, a strategic partnership that is universal in scope.

My mission is to build concrete cooperation projects that bring French and Indian people closer together, make our nations more prosperous and protect the planet.

As I embark on this mission, I invite you to follow and exchange with me on social media I'm looking forward to hearing your comments, your opinions, and your ideas for France and India." he added.

While sharing the video on X, Ma-

thou said, "As I officially embark on my mission in India, I look forward to hearing your thoughts, comments and ideas on what more France and India can do together.'

On this occasion, the French Ambassador underscored the historic ties of friendship, solidarity and trust between India and France, which in the past 25 years have led our two countries to develop an exceptionally successful strategic partnership, said the French Embassy in India.

Mathou recalled the visit of Prime Minister Narendra Modi to Paris as Guest of Honour of France's National Day on July 14 and President Emmanuel Macron's visit to India for the G20 Leaders Summit in September.

He stressed his commitment to delivering on the ambitious vision that the two leaders have set for the future of the France-India strategic partnership, all the way to 2047.According to the French Embassy in India,

Mathou outlined that the partnership between India and France is strategic in nature, and universal in scope. It encompasses a partnership for security and sovereignty, through which India and France strengthen their strategic autonomy and contribute to stability and prosperity in the Indo-Pacific; a partnership for the planet, with the goal of combining growth with environment protection in India, and spearheading international action on global challenges together in the spirit of Vasudhaiva Kutumbakam.

In addition, he highlighted the partnership for people to tap into the immense reservoir of friendship and mutual admiration between the people of France and India to build bridges between our artists, students, innovators and entrepreneurs. Mathou thanked President Murmu for her support to the advancement of Indo-French ties.

Journalists urged to prepare for 2023 TASWA Media Day Bonanza

By Guardian Correspondent

TANZANIA Sports Writers Association (TASWA) has asked journalists and media workers in the country, who are expected to attend the association's bonanza, dubbed 'TASWA Media Day Bonanza 2023', to prepare so that everyone can participate in at least one sport.

According to TASWA secretary general, Alfred Lucas, the association has provided a list of sports that the attendants will take part in on the

Most of the sports, Lucas disclosed, are for fun and not competitive, so there is no need for the association to find people who are not media workers to come and help.

The bonanza will be held at the Msasani Beach Club in Dar es Salaam on December 16 and will involve journalists of all kinds as well as more than 2,000 media workers.

The expected sports are athletics, which will include the 100-meter race, relay race, sprinting, jumping, sack race, running with an egg on a spoon, and running with a glass of

Other sports are football, basketball, volleyball, netball, shot put, tugof-war, rope skipping, darts, table tennis, draft, pool table, bao, cards, and 'rede'.

Lucas said other competitions will involve music dancing, drinking soda, chicken chasing, eating ugali with a whole roast chicken, etc.

He said some of the sports will be played by only one gender, while other sports will involve both genders.

According to Lucas, other procedures regarding participation in the bonanza, including getting journalists slated to represent their counterparts from other regions, will be released as soon as they are completed.

No. 1 pick Wembanyama scores 15 points in NBA debut as Spurs fall to Mavericks in opener

SAN ANTONIO

THE Victor Wembanyama era is underway in San Antonio.

Wembanyama made his NBA debut with the Spurs against the Dallas Mavericks on Wednesday night and made an immediate splash.

"He's going to be amazing, he already is," Dallas All-Star Luka Doncic said. "The size obviously (stands out), like everybody talks. The way he moves for (7-foot-3), he moves incredible. He moves like a point guard almost. It's pretty amazing to see."

The No. 1 pick in the NBA draft blocked a shot in the opening minute of the game and misfired on a 3-point attempt from the top of the key. But the 19-year-old who stands nearly 7-foot-4 found his spot and scored his first NBA points with a 3-pointer – again from near the top of the key – at the 8:25 mark of the first quarter. He added another 3-pointer from the right wing with under two minutes left in the opening quarter.

"I was just focused on being the best I can be when I stepped back on the court," Wembanyama said.

That six points was all the scoring for Wembanyama in the first three quarters as he was slowed by foul trouble. But he provided a glimpse of his outstanding skill by scoring nine points in the fourth quarter and finished with 15 points on 6-for-9 shooting (3 for 5 from long distance), with five rebounds, two assists and a block in more than 23 minutes in a 126-119 loss to the Mavericks.

Wembanyama was forced to exit after picking up his fourth foul with 8:37 remaining in the third quarter on a touch foul while attempting to set a pick on Derrick Jones Jr. The

Mavericks took their first lead 37 seconds later at 73-72.

Wembanyama returned midway through the fourth quarter and quickly scored seven points to electrify the crowd. His first bucket came on an alley-oop that rolled over the rim, and he punctuated the run with a thunderous dunk.

Wembanyama was limited to only four field goal attempts in the first half, but it wasn't from a lack of effort. He continually ran down the court asking for the ball against smaller defenders, but his teammates did not see him.

"I think even in transition where we missed him," Spurs guard Devin Vassell said. "He is running ahead. I mean you got to see them. Those are easy buckets. Those are gimmes. We need those. So, it's an adjustment to say it like that. You know what I'm saying? Every day you don't have a 7-4 player running down, running down the wing, being able to post stuff and get easy catches and stuff like that. We got to see them. We've got to take advantage of it. So, like I said, first game, it is what it is. We're going to learn."

Wembanyama played pro basketball in France before being drafted. His first game in the NBA had the world watching.

"How can I deny that," San Antonio coach Gregg Popovich said prior to Wednesday's game. "It's pretty obvious. Victor's had a lot of attention pointed toward him for a very long time and that's not going to change. Fortunately for us, he's a really mature, prioritized young man that knows what he wants. He's already a

Monica shines as Mount Meru Queens thrash K'njaro Queens

Meru have continued to put pressure on the inaugural Tanzania Women's Cricket Premier League's leaders, Ngorongoro Queens, having commanded an eightrun victory over Kilimanjaro Queens last weekend.

The duel, which was played at Leaders Club ground in Dar es Salaam, witnessed Mount Meru Queens making the most of their innings when they took the crease first, notching 146/3 in the scheduled 20 overs.

The opening batting pair of Aisha Mohamed and Gertrude Mushi put good knocks to show as the batting side was keen on amassing runs from early on.

Aisha posted 32 runs whilst clearing the boundary on four occasions and the fellow opener chipped in with 15 runs.

Mount Meru Queens were nine runs short of triple digits once Aisha made her way back after 13.2 overs, with the batter being run out by Shania Fikiri off a delivery from Swaumu

Getrude's batting stint had ended a bit earlier given the opener was dismissed by Nasra

Senior cricketer, Monica Paschal, had Mount Meru Queens piling more runs thanks to the performers' stellar showing.

Monica scored 69 runs not out, enjoying an unbeaten partnership with youthful Jenipher Gabriel to ensure Mount Meru Queens end their innings with a bigger total.

Jenipher, also a top-order performer, made her way back with 22 runs not out that consisted of three boundaries.

There was little Kilimanjaro Queens could do to frustrate Mount Meru Queens' efforts to amass a convincing figure much as the fielding side snuffed Malizia Salum's wicket after a few

Mount Meru Queens had already posted 105 runs by the time Malizia was dismissed, as the cricketer returned once she was stumped by Swaumu Deo Queens attempted to weaken

Mount Meru Queens' skipper, Monica Paschal (L), gets the Player of the Match award from the senior national men's cricket team coach, Jimmy Kamande, after the conclusion of the clash pitting the team against Kilimanjaro Queens in Dar es Salaam last weekend. Yanga and Azam FC midfielders risk facing three-match ban

YANGA midfielder Mudathir Yahya and his Azam FC counterpart, Feisal Salum, are likely to face a 500, 000/- fine apiece and a three-match ban by the Tanzania Premier League Board (TPLB) after breaking the rules when the teams met in a 2023/24NBC Premier League clash in Dar es Salaam on Monday.

Stephanie Aziz Ki inspired Yanga into a sensational comeback, having trailed 2-1, to register a 3-2 defeat of Azam FC in the fixture that took place at Benjamin Mkapa Stadium in Dar es Salaam.

The crucial win has witnessed Yanga moving to the top spot in the league log with 15 points after participating in six matches.

According to article number 41:5 (5.4) of the league's regulations, doing any shameful act such as urinating on the field, refusing to shake hands with an official guest, referees, and players of the opposing team, and showing a sign that indicates an insult amounts to an offense.

Azam FC's Salum and Yanga's Yahva caused a stir as they were seen standing on the touchline while other players shook hands before the match began.

The incident happened when the teams took to the pitch ready

Azam FC's midfielder, Feisal Salum (R), shoots as Yanga's midfielder Mudathir Yahya closes in as the clubs locked horns in a 2023/24 NBC Premier League at Benjamin Mkapa Stadium in Dar es Salaam recently, with Yanga commanding a 3-2 victory.

to start 45 minutes of the match and the players stood in the line to enter the playing area.

Salum was seen doing physical exercises while Yahya took off his shoes, seemingly seeking to delay his entrance on the pitch so Salum could take the pitch ahead of the Yanga mid-

The two players' actions are deemed as superstitious beliefs and have risked the duo, as per the league regulations.

The two players were outside for a while while their teammates lined up and greeted each other, Salum and Yahya continued to wait for each other until the exercise was completed FC, and Ihefu SC.

while the teams went to their respective positions.

As the fans were shocked by the two midfielders' actions, Yahya decided to be the first to join his fellow players while Salum followed and took squad pictures with his fellow players.

Last season, Yanga's attacking midfielder Stephane Aziz Ki and Simba SC's midfielder Clatous Chama were fined 500,000/apiece and banned for three matches in the NBC Premier League for committing the same

On match number 64 of the league involving Simba SC and Yanga at Benjamin Mkapa Stadium on October 23, 2022, the two players did not shake hands as the outfits' players lined up to greet each other as fair play before the match kickoff.

According to the statement, the punishment is per the rule 41:5 (5.4) of the NBC Premier League control for players last season.

This means if the committee sits early Salum and Yahya may miss the next three Premier League games.

Yanga will play against Singida Fountain Gate FC, Simba SC, and Coastal Union while Azam FC will play Namungo FC, Mashujaa

Swiss probe into FIFA chief Gianni Infantino dropped

SWISS prosecutors announced yesterday they have dropped their three-year criminal proceedings against FIFA president Gianni Infantino over suspected collusion with officials concerning the corruption scandal that engulfed world football's governing body.

Infantino declared a "full and clear victory" in the case and demanded an apology from what he called the "envious and corrupt" people out to tarnish his reputation.

A probe was opened in July 2020 to investigate suspicions of collusion between Infantino and Switzerland's then-attorney general Michael Lauber, the country's top prosecutor.

Lauber was in charge of Switzerland's probe into the towering corruption scandal that exploded at the heart of Zurich-based FIFA in 2015.

But he was forced to recuse himself from the investigation in June 2019, following media revelations that he had held several undeclared meetings with Infantino during the probe.

Two special prosecutors were assigned to the case, but in a statement Thursday, they said the investigation had closed, with the allegations re-

"The criminal proceedings... are discontinued," the statement said.

"The suspicion of instrumentalisation of the Office of the Attorney General of Switzerland by FIFA has not been substantiated in the course of the comprehensive investigation. "On the contrary, the suspicion was refuted."

In a statement, FIFA noted its "extreme satisfaction" with the decision, saying the only surprise was how long it had taken to reach an "obvious

"The new FIFA is today a clean, well-run and robust organisation which operates in accordance with the highest ethical and governance standards," it declared.

For his part, Infantino, 53, said it was a "full and clear victory for me, for the new FIFA and for jus-

"It is now clear that the accusations against me were mere attempts by poor, envious and corrupt people to attack my reputation. If these people have some dignity left, they should at least have the decency and apologise for their actions and the damage caused," he said.

"Indeed and with no surprise, the investigation fully and clearly confirms that I have always acted in a lawful and correct way, always defending exclusively the interests of FIFA and football."

Bellingham can cap sublime Madrid start in first Clasico

JUDE Bellingham is loving life at Real Madrid, even before getting the chance to play in the club football's biggest match, the Clasico.

The England international will lead Los Blancos into battle at Barcelona's temporary Olympic Stadium home on the Montjuic hill tomorrow, having become Carlo Ancelotti's key player within three

Bellingham has begun the season in extraordinary form, with 11 goals in 12 games for the club across all competitions.

It is a spectacular start that nobody could have envisaged, even the Madrid coach himself, despite deploying Bellingham in a more attacking number 10 role. His goals are making up for the departure of Ballon d'Or winner Karim Benzema and the failure to sign Kylian Mbappe from Paris Saint-

"This is the club I want to be at for the next 10 to 15 years of my life, I am loving it," Bellingham told reporters while on international duty last week.

Madrid fans have fallen head over heels in love with Bellingham, but they are notoriously fickle. Nobody has escaped the Santiago Bernabeu's whistles forever, including all-time top scorer Cristiano Ronaldo.

Bellingham's remarkable start could be undermined if the Liga leaders disappoint their supporters in Catalonia at the weekend.

The 20-year-old midfielder was on-target again with a decisive strike in the 2-1 win at Braga on Tuesday night which helped Madrid maintain their perfect start in the Champions League.

Bellingham was taken off late in the game with thigh discomfort but Ancelotti said it was nothing to worry about. "He's good," said Ancelotti. "Nothing important, he'll recover, he'll be there on Sat-

Unlike previous big money imports, Gareth Bale, whom fans grew to dislike despite his success because of a disconnect, and Eden Hazard, whom they rarely saw fit, there has been an instant connection between Bellingham and the club's supporters.

Bellingham said his legs were trembling when he first heard Madrid fans serenade him with the chorus of Beatles song 'Hey Jude', but his performances have been steadily impressive.

Haaland and Mbappé on target in Champions League wins for Manchester City and PSG

BY DANIELLA MATAR

UPERSTAR for-Erling Haaland and Kylian Mbappé were both on target Wednesday to help boost their teams' chances of reaching the Champions League knockout stage.

Haaland scored twice in defending champion Manchester City's 3-1 win at Young Boys in Group G, while Mbappé set Paris Saint-Germain on the way to a crucial 3-0 home victory over AC Milan in Group

That broke a scoring drought in the competition for Haaland, who has nine in as many Premier League matches this season. Mbappé has eight in eight Ligue 1 games and also netted in PSG's Champions League opener.

City now just needs to beat the same opponent in two weeks' time to book its place in the last 16. Barcelona is in a similar situation after a 2-1 win over Shakhtar Donetsk maintained a perfect start to its Champions League campaign too.

PSG leads a group that is getting ever tighter and leaves Milan, last season's semifinalist, with the prospect of not even qualifying for the Europa League as a consolation.

Feyenoord is in position to advance in its first time

Manchester City's Erling Haaland shoots a penalty shot to score, during the Champions League group G soccer match between BSC Young Boys and Manchester City, at the Wankdorf stadium, in Bern, Switzerland, Wednesday, Oct. 25,

back in the group stage in six minutes with 10 men after mid-

Santiago Gimenez scored twice and Ramiz Zerrouki also found the target as the Dutch champion beat visiting Lazio

Feyenoord moved a point ahead of Atlético Madrid, which was surprisingly held to a 2-2 draw at Celtic. Lazio was a point behind Atlético and three above

Antoine Griezmann and Álvaro Morata scored a goal in each half as Atlético had to twice come from behind to salvage the away draw. Celtic scored before halftime through Kyogo Furuhashi and Luis Palma.

fielder Rodrigo de Paul was sent off following a second yellow card.

GROUP F

PSG bounced back from its 4-1 humiliation at Newcastle to move top of its group.

France forwards Mbappé and Randal Kolo Muani scored either side of halftime. Teen midfielder Warren Zaïre-Emery set up two goals, including PSG's third for South Korea winger Lee Kang-in near the end.

PSG moved two points clear of Borussia Dortmund and Newcastle after the German team won 1-0 at St. James' Park.

Felix Nmecha turned in Nico Atlético played the last seven Schlotterbeck's cross in the

45th minute to hand the Saudi-owned English team a first loss on its return to the competition after 20 years away.

Seven-time champion Milan still has not won or scored in Group F and slipped four points behind PSG. GROUP G

Haaland hadn't scored in his previous five matches in the competition, stretching back to last season's semifinals in May, but he ended that improbable run by blasting a spot kick down the middle in

the 67th to put City 2-1 ahead. The Norway striker wrapped up the victory by curling a shot into the top corner in the 86th minute for

his 37th goal in 33 Champions League games.

Manuel Akanji had given City the lead in the 48th, only for the titleholders to concede four minutes later through Meschack Elia.

City moved onto nine points, three clear of secondplace Leipzig after the German team beat Red Star Belgrade 3-1.

Xavi Simons, who is on loan from Paris Saint-Germain, set up David Raum's opener in the 12th minute and curled a spectacular second into the top-right corner from outside the box in the 59th.

Dani Olmo sealed the result late on after Marko Stamenic had pulled one back for Red Star.

Young Boys and Red Star were both on a point.

Five-time European champion Barcelona remained on course to advance to the knockout round after two straight group-stage eliminations.

Ferran Torres and Fermín López scored first-half goals for Barcelona, which hasn't advanced past the group stage since Lionel Messi left in 2021.

The Catalan club has three more points than secondplace Porto, which won 4-1 at Antwerp thanks to a secondhalf hat trick from substitute Evanilson.

Antwerp, which had taken a surprise lead, remained pointless. Shakhtar was six points below Barcelona.

Felix Nmecha leaves Newcastle wondering what might have been amid Sandro Tonali misery

IT will not have been lost on Newcastle United that they had been close to signing the Germany international Felix Nmecha in the summer, only to tear up the plan as soon as they were offered Sandro Tonali instead.

On a frustrating, wet and miserable evening on Tyneside, that sliding-doors moment was thrust to the fore once more after Nmecha's goal condemned Newcastle to a first defeat in this Champions League campaign.

Newcastle spent £53 million on Tonali, Nmecha would have cost them half the price and now the Italian is expected to be banned for the rest of the season.

"He was a player we looked at in the summer and really liked," said Newcastle manager Eddie Howe. "But he's a Dortmund player now."

When it was pointed out Newcastle had decided to sign Tonali instead, Howe's reply was sharp and short. "It's never as simple as that ... I was really pleased with his performance. I've got no update on his [ban] situation."

Newcastle thought they had won the lottery when AC Milan admitted they would be open to the idea of selling their captain and talisman. Tonali's departure from Italy was perceived as a blow to the self-esteem of Serie A, a European aristocrat

AFP

Felix Nmecha finished clinically in the first half for Borussia Dortmund. Agencies

forced to sell their prized asset. Now there will be relief he is no longer their problem. As Tonali awaits confirmation of a lengthy ban after admitting multiple breaches of gambling rules from his time at Brescia and AC Milan, Newcastle are facing up to a testing future without their marquee

signing.

With their other expensive summer arrival, Harvey Barnes, out injured until the end of the year, Newcastle's squad looks no stronger now than it did at the end of last season. It is a worry that will only be inflamed by the injuries Newcastle are picking up. Alexander Isak and Jacob Murphy both went off here. Joelinton is not at his best either and Elliot Anderson is also out for "several weeks" with

a back injury. Amid the excitement at signing Tonali in July, Newcastle's interest in Nmecha has been all but forgotten. He had made Newcastle's shortlist and was well aware of their interest, but nothing hap-

liked the move too, but when the former Manchester City player eventually left Wolfsburg, it was a switch to Dortmund instead to replace England's Jude Bellingham. His goal in expected to be his final the first half - his first pened. He would have for Dortmund - will have

chy. It was a quality finish that reminded Newcastle that they are new to this level, raw and inexperienced.

That is why Newcastle were so keen on Tonali. He had Champions League experience; international know-how and prestige. This was his stage but he will not be on it again for a long time. Back in the warmth of pre-season, the club believed they had pulled off one of the signings of the summer. On a soaking wet Oc-

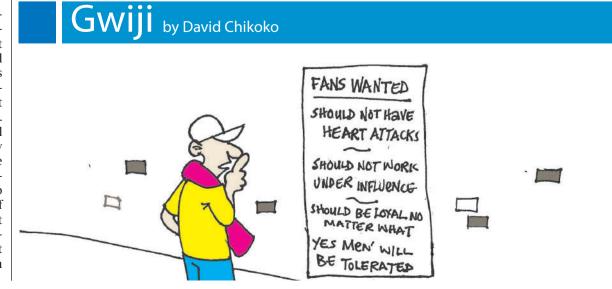

tober night, there is no escaping from an uncomfortable conclusion: the signing of Tonali now looks like an expensive mistake. His enforced absence significantly reduces Newcastle's chances of success this season. In what was game before he starts a rumoured 10-month

brought some difficult ban, the 23-year-old memories flooding back could only make the for the Newcastle hierarbench. Newcastle are already preparing for life without the second-most expensive signing in the club's history.

Tonali came on with 25 minutes left, but he could not make anything happen. There were a couple of nice touches, a few flashes of quality, but as they have been for most of his brief time in England, they were sporadic. Whether they are willing to admit it in public or not, if Newcastle could go back in time, they would walk away from the Tonali deal. Nmecha might not be as good a player as Tonali could eventually be in black and white stripes, but at least he would be available.

He would be able to play and he showed in Dortmund yellow precisely why Newcastle had been interested in him in the first place.

High-flying Yanga faces stern Singida Fountain Gate FC test in PL

Haaland and Mbappé on target in Champions League wins for Man City and PSG

By Correspondent Michael Mwebe

HE Benjamin Mkapa Stadium opens its doors for another game for Young Africans SC with Miguel Gamondi's side hosting Singida Fountain Gate FC in the 2023/24 NBC Premier League.

The reigning Premier League champion, popularly known as Yanga, is still the team to be so far in the league and currently sits top of the table, having won five of the opening six

The only blip in Yanga's stellar league form this season was a 2-1 loss on the road to Ihefu SC.

They come into the game having recorded a 3-2 win over title rivals Azam FC at Benjamin Mkapa Stadium on Monday evening.

While Yanga will know this will not be an easy matchup, the Jangwani Street outfit will gain confidence from the fact

Singida Fountain Gate FC's players (in yellow shirts and black shorts) battle for ball possession with their Yanga counterparts when the outfits met in a previous season's NBC Premier League tie at Liti Stadium in Singida on May 4 this year. PHOTO: COURTESY OF SINGIDA FOUNTAIN GATE FC

that the squad did beat this opponent in all three meetings last season, and another win here will give the squad a breathing space over other title contenders.

Ahead of the game, Gamondi addressed the media, saying: "Tomorrow we are going to play another difficult game against Singida but we aim to make sure

we win every game and en- with dedication and caution tertain our fans who come to give us support throughout our matches while at the stadium."

Gamondi pointed out: "It will not be an easy game because many things have changed for our opponent Singida, they have a new technical bench with different knowledge. We will play because we need victory in every game."

The Argentine gaffer said: "Special thanks to our fans for supporting us with great enthusiasm and helping us come from behind to secure victory against Azam FC. I believe they will turn out in large numbers tomorrow for our game.'

The sheer potency in front of goal has been one of the factors for Gamondi's team's rise to the top, as Yanga has scored in each of the club's six games, averaging three goals per match in all six league games this

Yanga has no major injury or suspension concerns ahead of this match, meaning the outfit should be at full strength.

Gamondi is bound to deploy a similar starting XI from his outfit's victory over Azam FC on Monday despite the quick turnaround.

Singida Fountain Gate FC has enjoyed a somewhat poor campaign so far, as the outfit currently sits ninth in the table, having garnered eight points from the opening six matches in the NBC Premier League.

They come into this match brimming with confidence after clinching a solid 3-2 win over Namungo FC in Lindi last weekend.

Midfielders Duke Abuya and Maruf Tchakei had got on the scoresheet for Singida Fountain Gate FC in the duel against Namungo FC.

Singida Fountain Gate FC's head coach, Ricardo Ferreira, reveling in his debut victory, knows that the Yanga challenge will be a notch higher.

A big performance by Singida Fountain Gate FC is needed to get something out of the game.

KMC FC looking to continue strong Premier League season

By Guardian Correspondent

00 The Cruise

THIS Friday afternoon, Kinondoni Municipal Council FC hosts Tanzania Prisons at the Uhuru Stadium in Dar es Salaam as the former is looking to maintain a strong start to its 2023/24 NBC Premier League campaign.

Kinondoni Municipal Council FC looks solid under the leadership of former Azam FC head coach, Abdihamid Moallin, this season.

They head into this clash on the back of a fourgame unbeaten run. There have been three straight victories against Ihefu SC, Geita Gold FC, and JKT

They are currently sitting fourth in the Premier League's table and just four points shy of the table leaders Young Africans.

A goalless away draw in a clash against Tabora United last time out ended Kinondoni Municipal Council FC's winning streak which earned Moallin the Best Coach of the Month award for September.

Tanzania Prisons, on the other hand, finally got the club's first win of the season with a 3-2 home win over Mtibwa Sugar before the former settled for a 1-1 draw with JKT Tanzania last weekend.

They have won one, drawn two, and lost three of their six league matches this season to collect five points, which has left them in the relegation zone.

Four points in their last two games suggests they are making progress. The team's away record, however, is still in need of improvement, with two defeats and one draw in the three matches they have played so far in this NBC Premier League season.

Nevertheless, a strong performance is expected from Prisons' head coach Fred Felix, and his team to carry the momentum from the last two games.

Prisons won the last meeting between the two teams in the league 1-0 last season, which could give Minziro's men a good confidence boost ahead

The biggest threat for the visitors is likely to come from forward Waziri Junior, who has already scored two goals for Kinondoni Municipal Council FC this season.

In head-to-head records, the two teams have met in ten league games since 2018/19. Each side has claimed four wins while two games have ended in draws.

The last meeting in the league ended 1-0 in favour of hosts Tanzania Prisons at Sokoine Stadium in Mbeya.

Azam FC eyes swift response against struggling Namungo FC

By Correspondent Michael

the taste of defeat for the first time this season in the club's previous match, this evening will be a test of the squad's ability to bounce back, and whether it can maintain

Azam FC will be aiming for a swift return to the win column when the squad hosts Namungo FC at the Azam Complex Stadium in Dar es Salaam.

strong performances or not.

Overall, Azam FC has a favourable report card in their opening six games. The club has registered four victories and one draw in addition to Monday's 3-2 defeat to Young Africans SC.

They are likely to remain unchanged in attack for this match after the duo of attackers, Prince Dube, and Gibril Sillah, got on the scoresheet in the clash against Young Africans SC.

Namungo FC, positioned second from the bottom,

feels the pressure mounting ment so assistant coach Deneach game week. The club nis Kitambi will take charge is without a win in all six of this game on an interim WITH Azam FC suffering league matches so far, a run basis. the club will be looking to put behind it.

> They come into this game on the back of a morale-sapping 3-2 home loss to Singida Fountain Gate FC. The result saw the end of Burundian Cedric Kaze's era at Namungo FC.

On Sunday night, Kaze resigned, saying in a statement: "I have decided as of today to resign as Namungo FC head coach. I would like to take this opportunity to thank the management, my colleagues of the technical staff, and the players for their support, and commitment."

The tactician noted: "I would finish by thanking the fans who have always been supportive. I wish the team the best of luck in the future." Kaze wrote a brief statement on his official Instagram account."

The club management is yet to appoint Kaze's replace-

Although it is still fairly compact at the bottom of the table. There will be a need for concentration considering where a defeat could lead the team by the end of the weekend.

As far as head-to-head count is concerned, Azam FC has the upper edge over Namungo FC.

In eight league meetings between the two sides, Azam FC has managed to record four victories while losing two in the process.

However last season saw either side claiming victory on the road against the other. Azam FC picked a hardfought 1-0 victory at Majaliwa Stadium in November.

Then Namungo FC paid the outfit's dues with a 2-1 victory at Azam Complex Stadium in Dar es Salaam in the reverse fixture played in
