**Background:** The WorldWide Fund for Nature (WWF) is an international non-government organization that deals with conservation of nature through environmental management and conservation programmes. Its mission is to stop the degradation of planet's natural environment and to build a future which in which humans live in harmony with nature. WWF Tanzania Country Office through The Eastern Africa Sustainable Forest Programme seeks to strengthen Sustainable Forests Management (SFM) and scale-up regional interventions by working more closely with Regional Economic Commissions (RECs) in order to address illegal trade in timber and other forest products and to embrace regional collaboration among East African countries to improve forest governance particularly going beyond things that are bilateral and regional in nature.
